

CCI Health Services Partners with RxParadigm to Launch Neutral 340B Claims Clearinghouse in Maryland

CLAYMONT, DE, UNITED STATES, May 13, 2025 /EINPresswire.com/ -- RxParadigm is pleased to announce a strategic partnership with CCI Health Services, a leading Federally Qualified Health Center (FQHC) based in Silver Spring, Maryland, to implement a neutral 340B claims clearinghouse powered by TUNGSTEN+ PLUS™. This collaboration is designed to increase transparency, ensure compliance, and strengthen the integrity of the 340B program statewide.

The RxParadigm neutral clearinghouse allows drug manufacturers, payers, and covered entities to review and verify claims through a centralized, transparent platform—dramatically reducing the risk of duplicate discounts and administrative inefficiencies. By implementing this solution, CCI Health Services is taking proactive steps to ensure operational integrity while positioning itself as a model for responsible 340B management.

Learning about RxParadigm during a presentation at a National Association of Community Health Centers' (NACHC) Policy & Issues Forum, Dr. Sonya Bruton, CEO & President of CCI Health Services saw RxParadigm as a potential solution to address long-standing concerns in 340B claims management. She recognized the platform's ability to bring unprecedented clarity and accountability to an increasingly complex landscape.

"We are always looking for ways to improve our stewardship of the 340B program, which is essential to our ability to serve our community," said Dr. Bruton. "RxParadigm offers the kind of technology that can support us in fostering trust and bridging data gaps that challenge many 340B programs. We're excited to be an early adopter in Maryland and to lead by example."

This partnership also comes at a time when Maryland continues to defend 340B covered entities through legislation like the "Prohibition on Discrimination Against 340B Drug Distribution", protecting access to contract pharmacies and critical medications. The RxParadigm platform further supports those protections by ensuring claims accuracy, preventing double billing, and providing manufacturers and lawmakers with the confidence that the program is being administered fairly and responsibly.

"We're thrilled to support CCI Health Services and Dr. Bruton's leadership in advancing transparency and compliance within the 340B program," said Mesfin Tegenu, CEO and Chairman of RxParadigm. "Their decision to adopt the RxParadigm clearinghouse powered by TUNGSTEN+

PLUS™ highlights a commitment to innovation, accountability, and health equity.”

The RxParadigm clearinghouse has already begun delivering results across multiple states, and CCI Health Services is now among a growing number of health centers nationwide choosing to lead with transparency and accountability.
