Airing May 19th and May 27th, [EmCyte Corporation](#) took center stage to discuss groundbreaking advancements in the treatment of plantar fasciitis. Dr. James Losito, a leading podiatrist from Barry University's Foot and Ankle Institute, joined Dr. Drew to educate viewers on the condition—its symptoms, how patients can perform a self-check, and its underlying cause as an inflammatory issue. Dr. Losito highlighted the promising results of regenerative therapies in promoting natural healing.

“Our mission is to bring lasting relief to patients through innovative and personalized treatments that harness the body's natural healing potential in a manner that's unique to our technology.”—Patrick Pennie, EmCyte Corporation President & CEO

The program also welcomed Patrick Pennie, Founder, President, and CEO of EmCyte Corporation, who detailed how EmCyte is rewriting what's possible in regenerative medicine.

EmCyte's therapies harness the body's own healing potential through platelet-rich plasma (PRP) and stem cells derived from bone marrow, aiming to stimulate tissue regeneration and repair. Together, Dr. Losito and Mr. Pennie emphasized that patients are seeing transformative results, with many avoiding surgery altogether. As regenerative medicine continues to gain traction, EmCyte is leading the charge in developing treatments that empower the body to heal itself.

"At Health Uncensored with Dr. Drew, we're proud to partner with pioneers like EmCyte Corporation to spotlight the future of medicine. This segment exemplifies our mission to bring powerful, life-changing information to the forefront—empowering viewers with real solutions and hope for a healthier tomorrow." — Orlando J. Espinosa, Executive Producer of Health Uncensored with Dr. Drew
