PLAINSBORO , NJ, UNITED STATES, May 14, 2025 /EINPresswire.com/ -- [Infopro Learning](#) will be participating in Luxatia International's 10th Corporate Learning and Development Summit, taking place May 15–16, 2025, at the Eurostar Berlin Hotel. On May 16 at 9:10 CET, Executive Vice President and Chief Learning Architect Arun Prakash will deliver an insight-rich session titled, "Accelerating Skill Velocity: How AI Is Revolutionizing Skills-Based Talent Development."

Arun Prakash's interactive presentation will illustrate why 70 percent of digital transformation programs stall not for lack of technology, but for lack of human capability, and how AI can close that gap. Attendees will explore data-driven readiness diagnostics, a structured four-phase acceleration framework, and pragmatic tactics for embedding AI as both subject matter and enabler inside the learning ecosystem. Participants will receive an exclusive Digital Fluency Assessment Tool, and an implementation roadmap designed to cut time-to-proficiency by up to 47 percent.

Infopro Learning's Director of Sales, Vikrant Sharma, will also attend the two-day summit to connect with learning, HR, and digital transformation leaders and share success stories of AI-enabled workforce initiatives.

Hosted by Luxatia International, the summit gathers senior L&D, HR, and business executives to explore breakthrough approaches in learning innovation, gamified upskilling, AI-driven mentorship, and culture change.
