thought-provoking book, [Is That Really
in the Bible?](#), hit #1 Best Seller in two

More than just a religious text
commentary, *Is That Really in the Bible?*
offers a fresh, logic-based, and
experience-driven perspective on one of the most influential books in human history. McMurtry
emphasizes that the Bible is not about religion—it's about truth. Religion, he says, is a map, but
the Bible is the terrain itself.

Having served over 30 years in the U.S. Army, including active duty as a helicopter gunship pilot
during the Vietnam War, McMurtry draws on a lifetime of intense, near-death experiences and a
deep, personal journey through Scripture. His time flying dangerous missions—including the
perilous Nighthawk Missions—shaped his understanding of divine intervention and the unseen
forces at work in the world.

"I decided to study the Bible like a manual—not just a sacred book you shouldn't question," says
McMurtry. "I use logic and lived experiences to separate Biblical fact from fiction."

The book breaks away from traditional theological interpretations, focusing instead on unfiltered

Biblical truths uncovered through personal revelation and critical analysis. McMurtry encourages readers to challenge what they've been told and reexamine the Bible without inherited religious "baggage."
