

# Western Australia's Minprovis Modernises Rostering Through Partnership with Cru Software

*Minprovis replaces legacy systems with Cru Software's intelligent rostering platform to boost efficiency across complex Perth-based operations.*

PERTH, WESTERN AUSTRALIA,  
AUSTRALIA, May 19, 2025

/EINPresswire.com/ -- Minprovis, a company offering specialist on-site maintenance, projects, remediation, access and scaffolding services, full fabrication capabilities and equipment supply, has joined forces with Cru Software, a premier provider of automated rostering solutions. This strategic partnership is set to revolutionise Minprovis's approach to workforce management by replacing their legacy systems with Cru Software's advanced, automated platform, aimed at increasing resource utilisation and reducing administrative time.

Minprovis Workforce Team

“

We are excited to partner with Cru Software. Their automated rostering supports our goals to improve efficiency, optimise resources and reduce administrative time for better client service.”

*Minprovis Workforce Team*

Minprovis's commitment to embracing technology reflects its dedication to delivering exceptional service quality and maximising operational efficiency. By integrating Cru Software's innovative rostering capabilities, Minprovis is poised to streamline its processes, enhance workforce agility, and optimise project outcomes.

In their pursuit for continuous improvements, Minprovis identified the need for a sophisticated rostering solution capable of handling the complex requirements of resources and projects management. Cru Software, with its specialised expertise in the mining, oil & gas, and industrial

sectors, emerged as the ideal.

In announcing the partnership, Minprovisе shared, "We are excited to embark on this transformative journey with Cru Software. Their capabilities in automated rostering systems align with our forward-thinking objectives to enhance business efficiency, optimise resource allocation, and minimise administrative time to better serve our clients' needs".

Cru Software Logo - Rostering and Scheduling for Resources Industry

For Cru Software, this partnership is an opportunity to showcase the adaptability and efficacy of its solutions in some of the most demanding industry environments. By simplifying rostering processes, Cru Software is set to empower Minprovisе with the tools necessary to thrive in a competitive landscape.

Cru Software CEO, Jason Cameron, said:

We're thrilled to partner with Minprovisе—a business known for their fast-moving operations, large-scale workforce, and dynamic working environment. The volume of data and operational complexity truly puts our solution to the test—and that's exactly where we thrive. Their team has already played a hands-on role in helping to shape our platform through valuable insights, industry focused feedback to enhance key features and functionality. This collaboration is a powerful example of customer-led innovation delivering real-world impact."

This collaboration signals a promising advancement for industries that rely on precision and operational prowess, as Minprovisе and Cru Software together set new standards for excellence and efficiency.

#### About Minprovisе
