

Artificio Launches AI-Powered Automation Tool to Instantly Create Income Summary Sheets for Mortgage Underwriting

Artificio launches AI-powered tool to auto-generate income summary sheets, streamlining mortgage workflows and reducing loan approval application time by 70%

IRVINE, CA, UNITED STATES, May 19, 2025 /EINPresswire.com/ -- Artificio, a leader in intelligent document automation, proudly announces the release of its new AI-powered Automation Tool for [Income Summary Creation](#), designed to transform mortgage processing by delivering accurate, underwriter-ready income summaries in minutes.

Built on Artificio's advanced Intelligent Document Processing (IDP) platform and powered by AI agents, this new tool automates the classification, extraction, validation, and summarization of income documents—significantly reducing time spent on manual data entry and income analysis.

This breakthrough enhancement is now available to all Artificio users, including mortgage lenders, brokers, and underwriters who manage high volumes of income verification and documentation during the loan approval process.

"With the launch of our Income Summary Automation Tool, we're making it easier than ever for mortgage professionals to move quickly and confidently through the income analysis process," said Lal Singh, CEO and Founder of Artificio. "Our AI agents work tirelessly to eliminate bottlenecks, reduce risk, and accelerate the journey from application to approval."

The advertisement features the Artificio logo at the top left, which consists of a colorful four-quadrant circle. To the right of the logo is the word "Artificio" in a bold, black, sans-serif font. Below the logo and name, the text "LOAN AND MORTGAGE DOCUMENTS PROCESSING" is written in large, white, bold, sans-serif capital letters. Underneath this, in smaller white text, is "Fast and Accurate Loan Application Processing". The background of the ad is a photograph of a person's hands in a suit, sitting at a desk with a house model, keys, and a pen. Overlaid on the bottom half of the ad are four green horizontal bars, each with a white icon and text: a house icon for "TAX Forms", a document icon for "W2 Forms", a document icon for "1099 Forms", and a document icon for "Paystubs/Payslips". At the bottom left, the text "Auto Income Summary Generation by AI" is written in white. At the bottom right, there is a black rounded rectangle with the text "FREE TRIAL" in white. Below the entire ad graphic, the text "Automation Tool to Generate Income Summary Sheet" is written in black.

Automation Tool to Generate Income Summary Sheet

Lenders now trust [Artificio's loan processing automation solution](#) to handle high-volume mortgage-income-verification, reducing errors and turnaround times.

[Simplifying the Most Time-Consuming Step in Mortgage Processing](#)

Income verification is one of the most resource-intensive steps in mortgage underwriting. Borrowers often submit a mix of documents including pay stubs, W-2s, 1099s, tax returns, and bank statements. Manually sorting through these documents and calculating monthly or annual income introduces delays, errors, and compliance risk.

Benefits of Artificio for Mortgage Professional

Artificio's new tool addresses this challenge head-on by automating the entire process. Within minutes, lenders and brokers can upload income documents, and the platform will generate a clean, consistent Income Summary Sheet that can be used directly by underwriters—saving hours of manual work.

“

With the launch of our Income Summary Automation Tool, we're making it easier than ever for mortgage professionals to move quickly and confidently through the income analysis process”

Lal Singh, Founder and CEO of Artificio

Key Features:

- **Automated Document Classification**
AI algorithms instantly detect and classify income-related documents—no matter the format, layout, or source.
- **Intelligent Data Extraction**
Using machine learning and pattern recognition, the system pulls out key income values, employer info, deductions, YTD earnings, and more.
- **Underwriter-Ready Income Summaries**
The extracted data is compiled into a standardized income summary sheet that meets underwriting guidelines and is ready for immediate review.

- **Real-Time Validation & Flagging**

The platform cross-references extracted data for accuracy and consistency and flags any missing or inconsistent entries for review.

- **Seamless Workflow Integration**

The tool works directly within the Artificio platform and can also integrate with popular Loan Origination Systems (LOS), allowing teams to remain within their preferred workflow.

- API for Mortgage Document Processing

Integrate Artificio's capabilities directly into your LOS or platform with robust APIs for seamless, real-time automation.

- Automated Email & SMS Communication

Keep borrowers and lenders informed with real-time status updates and reminders through built-in email and SMS notifications and personalized messages.

Why It Matters

This launch marks a significant milestone in Artificio's mission to eliminate manual work from document-heavy industries. Mortgage professionals now have a way to accelerate processing, improve compliance, and scale operations without increasing overhead.

Early adopters of the feature have reported:

- 70–80% faster document processing
- Drastic reduction in human error
- Improved borrower satisfaction from quicker approvals
- Less back-and-forth between processors and underwriters

"It's like having a digital analyst on your team 24/7," said one mortgage operations manager who piloted the feature. "We now go from document upload to summary generation in minutes, and our underwriters love the standardized format."

How to Freely Access and Test the Tool

The Income Summary Automation Tool is now live and available to all Artificio customers. Users can access it directly through the Artificio website link even without creating the account at following link:

<https://artificio.ai/tools/mortgage>

For new users, Artificio offers a free trial and live demo sessions to help onboard teams quickly.

About Artificio

Artificio is an AI-driven automation platform built to eliminate manual data entry, streamline document processing, and bring digital intelligence to enterprise workflows. From intelligent document processing and form creation to data validation and PDF generation, Artificio empowers teams with no-code tools to achieve operational excellence. With clients across financial services, healthcare, logistics, and legal industries, Artificio is leading the future of cognitive business automation backed by AI Agents.
