Menopause Global Market Report 2025 – Market Size, Trends, And Global Forecast 2025-2034

The global menopause treatment market is poised for substantial growth, with predictions suggesting a rise from \$17.74 billion in 2024 to \$18.85 billion in 2025, showing a robust

“

It will grow to \$24.28 billion in 2029 at a compound annual growth rate (CAGR) of 6.5%.”

*The Business Research  
Company*

compound annual growth rate CAGR of 6.3%. The Business Research Company's latest report explores the key drivers for this upward trend including increased life expectancy, heightened awareness among women regarding their health, the use of nutritional supplements, advancements in healthcare access, lifestyle management, and patient advocacy.

Where Is The Menopause Treatment Market Headed In The

Future?

Optimistic growth trends persist in the menopause market, which is predicted to reach an estimated value of \$24.28 billion in 2029. This indicates a compound annual growth rate CAGR of 6.5%, driven by a host of factors including a growing focus on cognitive health, the implementation of wellness programs at workplaces, the integration of mental health in healthcare responses, and the rise of personalized medicine. Social awareness campaigns and educational initiatives are also contributing towards market growth. Additional growth trends expected in the upcoming period include emerging digital health solutions for menopause,

research on long-term health outcomes, the integration of telemedicine and virtual health services and innovations in treatments.

What Factors Are Driving The Growth Of The Menopause Market?

Physical inactivity among women introduces significant consequences during menopause, driving the demand for products and services that address menopausal symptoms as well as overlaps with health risks and general well-being. With an increase in women experiencing minimal physical activity during their leisure time, during transport, and as part of their work, the market for menopause treatment is expected to experience notable growth.

Who Are The Leading Players In The Menopause Market?

Major industry players in the menopause market include Pfizer Inc., Johnson & Johnson Inc. The Procter & Gamble Company, F. Hoffmann-La Roche AG, Merck & Co. Inc., and AbbVie Inc. These companies have significantly contributed to the current market size and are expected to continue shaping the market landscape.
