What Does the Future Hold for the Spout Packaging Market?

The spout packaging market size is expected to witness strong growth in the near future, with it predicted to swell

to \$37.31 billion in 2029 at a compound annual growth rate CAGR of 8.0%. The expected growth during the forecast period can be attributed to the increasing utilization of spout pouches and a growing penchant for single-serve and compact packaging. The rising demand for ready-to-eat food and packaging will further fuel this growth. Other contributors include rapid urbanization, an upswing in flexible package demand, as well as technological advancements, product innovations, packaging technologies, eco-friendly material development, and innovative designs.
