

ANY.RUN Celebrates 9th Anniversary with Exclusive Offers for Cybersecurity Teams and Professionals

DUBAI, DUBAI, UNITED ARAB EMIRATES, May 19, 2025

/EINPresswire.com/ -- [ANY.RUN](#), the interactive malware analysis and threat intelligence provider trusted by over 15,000 organizations worldwide, proudly marks its 9th anniversary with a series of exclusive offers available from May 19 to May 31.

Since its founding in 2016, ANY.RUN has helped cybersecurity teams work faster, smarter, and more efficiently. To celebrate nearly a decade of innovation, the company is launching limited-time promotions across its flagship products as a thank-you to its global community.

[Explore all ANY.RUN's Birthday deals](#), ending May 31.

ANY.RUN is a leading provider of interactive malware analysis and threat intelligence solutions, trusted by over 15,000 organizations worldwide.

ANY.RUN's flagship products include:

The tool that started it all. ANY.RUN's Interactive Sandbox allows real-time malware analysis in a secure cloud environment. Special birthday offers are now available for both individual analysts and enterprise teams:

- **ANY.RUN Hunter:** Ideal for solo researchers, the Hunter plan gives access to private mode, system process monitoring, API, and more.
- **ANY.RUN Enterprise:** Designed for organizations, it supports team collaboration, advanced

access controls, and productivity features.

Speed Up Investigations

Speed up investigations and enrich IOCs with ANY.RUN's Threat Intelligence Lookup. From now until May 31, all purchases of TI Lookup plans (100+ requests) come with double the request quota, offering teams more value and faster results.

Security Training Lab – Real-time Malware Analysis

Built for hands-on learning, the Security Training Lab gives students a safe environment to study real malware. During the promotion, educational institutions can receive up to 5 bonus one-year licenses as a gift.

These anniversary offers are the company's way of thanking its users — from long-time enterprise partners to new analysts just starting their journey.

ANY.RUN

ANY.RUN is a leading provider of cloud-based malware analysis and threat intelligence solutions trusted by 500,000 security professionals worldwide. With real-time sandboxing for Windows, Linux, and Android environments, the platform enables security teams to detect, investigate, and respond to threats quickly and effectively. ANY.RUN's tools include:

- **Real-time, click-through malware analysis in under 40 seconds**
- **Fast context and insights on IOCs, IOAs, and APTs**
- **Practical training for cybersecurity students and teams**

ANY.RUN is designed for flexibility— supporting individuals, small teams, and large SOC teams alike—with advanced privacy controls, role management, and collaborative features.
