

Avere Beauty Offers Advanced RHA Lip Fillers for Natural, Dynamic Facial Enhancements

Pittsburgh's leading med spa offers resilient hyaluronic acid fillers designed to adapt to facial movements while delivering natural-looking results.

PITTSBURGH, PA, UNITED STATES, May 19, 2025 /EINPresswire.com/ -- [Avere Beauty](#), a premier med spa serving Pittsburgh and surrounding communities such as Murrysville, Export, and Greensburg, today announced the

availability of advanced [RHA \(Resilient Hyaluronic Acid\) lip fillers](#) at their Lawrenceville and Murrysville med spa locations. This cutting-edge treatment offers beauty enthusiasts a solution that adapts to facial movements, providing natural-looking enhancements that maintain expressiveness.

RHA fillers use a gentle manufacturing process with minimal chemical modifications, preserving the natural structure of hyaluronic acid to closely mimic what's naturally found in skin. The result is dynamic facial enhancement that moves with expressions rather than restricting them.

"What makes RHA fillers revolutionary is their ability to adapt to facial movement while providing beautiful, natural-looking results," said Frank Udavcak, Business Director at Avere Beauty. "Unlike traditional fillers that might look stiff during expressions, RHA maintains a natural appearance whether you're smiling, talking, or at rest."

The advanced filler technology is ideal for addressing moderate to severe dynamic facial wrinkles and folds, particularly in areas with repetitive movement. Avere Beauty offers the complete RHA collection, with each formulation designed for specific treatment depths and concerns:

- RHA® 2 and RHA® 3 for moderate to severe dynamic facial wrinkles in the mid-to-deep dermis
- RHA® 4 for deeper lines requiring injection from deep dermis to superficial subcutaneous tissue

Clients have been enthusiastic about their experiences with RHA treatments at Avere Beauty. "I love Avere!! I've been to a few different med spas over the years and Ravyn is my favorite injector I've had so far!!! She's so sweet and always helps me figure out what I'm looking for :)" shared Abigail C., a regular client.

Another client, Ally G., remarked, "If you're looking for an AMAZING injector in the Pittsburgh area, you need to see Ravyn at Avere Beauty! She is such a talented and knowledgeable aesthetic nurse."

The positive feedback extends across Avere's team of skilled injectors. "Love going to Avere beauty! Always have a good experience and the employees are all wonderful! Diana does a great job and I am always happy with my results," said Sarah P.

Founded by Alyssa Luciano, RN, Avere Beauty has grown from a passion project into a thriving team of 17 dedicated professionals. What sets Avere Beauty apart is their commitment to creating a comfortable, relaxing environment for aesthetic treatments – a deliberate departure from the clinical feel of traditional med spas.

"Pittsburgh has other medspas, but none that represented the practice of genuine aesthetics we believed in," explained Udavcak. "We wanted to provide powerful aesthetic tools like neurotoxins and dermal fillers in a comfortable environment contrary to the sterile room of a traditional medspa. Avere Beauty is a place to go to relax, unwind, and leave feeling new."

The RHA filler treatments are available to clients throughout the greater Pittsburgh area, including communities in Allegheny and surrounding counties. Avere Beauty serves clients within a 30-mile radius of Pittsburgh, including Cranberry, Fox Chapel, Mt. Lebanon, Sewickley, Squirrel Hill, Moon, McKeesport, Monroeville, Export, and Greensburg.
