

The Hemp Doctor Launches DROP – Fast Acting THC & THCP Mixer

MOORESVILLE, NC, UNITED STATES, May 20, 2025 /EINPresswire.com/ -- The Hemp Doctor introduces [DROP – Fast Acting Mixer](#), a new innovative line of nano-emulsified hemp-derived liquids available in two formats: THC (Delta 9) and THCP. DROP is designed for rapid onset, precise dosing, and easy integration into any routine, with each variant offering a unique set of effects.

1. DROP | Delta 9 (15mg per 5ml vial) – Delivers a balanced, uplifting high ideal for relaxation, socializing, or everyday stress relief.

2. DROP | THCP (2.5mg per 5ml vial) – A concentrated option for experienced users, offering deeper, longer-lasting effects in a smaller dose.

DROP comes in a compact, travel-ready vial, making it easy to take your THC or THCP liquid mixer anywhere. Each 5ml dose is completely flavorless, so it won't alter the taste of any drink or food.

The way it was designed, DROP will blend seamlessly into “practically anything,” from water-based beverages, soft food like yogurt, salads, brownies, and more. And unlike traditional cannabinoid oils, it doesn't separate or leave a residue.

Formulated with cutting-edge nano-emulsion technology, DROP is absorbed faster and more efficiently than traditional edibles because the nano-sized cannabinoids bypass the liver's processing. This allows users to feel the effects within minutes rather than waiting hours for results.

All DROP vials are 0-calorie, gluten-free, sugar-free, and vegan. All batches are made with US-
