®, a premier provider of handcrafted pet treats based in Ocala, Florida, has announced the expansion of its product lineup to include premium tripe dog treats. The company's new offerings feature 100% natural, ethically sourced ingredients, continuing its commitment to providing wholesome treat options for pets nationwide.

The new tripe product line includes three sizes of braided [beef tripe](#) treats: 6-inch cases (30 treats), 12-inch cases (15 treats), and 24-inch cases (15 treats). All products feature tripe sourced from animals raised on open pastures through partnerships with trusted farmers who maintain ethical livestock practices.

"We're excited to expand our natural treat offerings with these premium tripe products," said Mr. Ahmet Karagoz, President of Dogginstix®. "Our commitment to using only the finest natural ingredients extends to this new line, where we've maintained our strict quality standards and ethical sourcing practices."

According to the company, tripe – the stomach lining of grazing animals like cows – provides dogs with a natural chewing experience while supporting healthy skin and coat maintenance. The treats undergo gentle processing methods designed to retain their natural qualities without adding artificial preservatives, colors, or flavors.

Dogginstix® emphasizes its transparent approach to ingredient sourcing and quality control. The company maintains relationships with farmers who raise livestock on open pastures, ensuring complete confidence in ingredient quality. Each batch of treats is handcrafted using slow baking and dehydration techniques to preserve natural flavors and nutrients.

Commitment to Natural Ingredients and Quality

The Ocala -based company differentiates itself through its dedication to transparency and natural ingredients. All treats are created without preservatives, fillers, or additives, following recipes refined over time to ensure both taste and nutritional value.

"Our primary focus remains creating treats that are nutritionally beneficial while being palatable for pets," Karagoz explained. "We believe the best treats start with the best ingredients, which is why we maintain such close relationships with our farmers."

The company's manufacturing process emphasizes meticulous attention to detail, with each batch handcrafted by dedicated bakers. This approach ensures consistent quality while promoting good oral health through the treats' natural texture and chewing properties.
