

# The Top Voices Launch the Tech Impact Awards 2025 to Spotlight Builders Across the African Tech Ecosystem

*The Top Voices Media launches the Tech Impact Awards to spotlight individual contributions to Africa's tech ecosystem. Applications are open until May 30, 2025.*

LONDON, UNITED KINGDOM, May 21, 2025 /EINPresswire.com/ -- The Top Voices [announce](#) the launch of the Tech Impact Awards 2025, a fully remote, free-to-enter Awards for individuals who are driving progress in Africa's tech landscape through public, community-rooted contributions.

Africa's tech scene is one of the fastest-growing in the world, and the Tech Impact Awards 2025 aim to recognize individual local contributions — from education and open-source development to product innovation and thought leadership — that benefit communities across the region and drive the local tech industry forward.

Applications are open through 30 May 2025 in the following categories:

Community Builders & Educators – for those building the ecosystem and helping others to grow

Startups & Product Development – for those solving real problems

Thought Leadership & Public Knowledge – for those sharing ideas that matter

These three categories were chosen to reflect the foundational ways individuals contribute to a thriving tech ecosystem. Community Builders & Educators are the catalysts for ecosystem, ideas, and talent growth; Startups & Product Development highlight those solving real problems through innovation; and Thought Leadership & Public Knowledge recognizes those who openly share insights, making tech knowledge more accessible and impactful. Each category celebrates the kind of work that's not always visible — but deeply valuable.

The judging panel includes leaders from across the African tech ecosystem, with expertise spanning investing, community building, and product development, including Eunice Allela (Google via Algomarketing), Elizabeth Boluwatife Rotimi (Techies on LinkedIn), Keshni Morar (Jozi Angels), Jonathan Ruwanika (Future Africa), Willy Nsabiyumva (African Management Institute) and other ecosystem experts.

As a community-driven media platform for early-stage startups, The Top Voices focus on people, not just companies. We believe that mentors, educators, product innovators, and community builders deserve recognition. By sharing their contributions and celebrating their achievements, we showcase the individuals driving innovation across Africa's tech industry.

"This Award is about using visibility not as a headline, but as a tool," says Anna Lebedeva, co-founder of The Top Voices, a community-driven media platform for early-stage startups. "We've seen how much talent goes unnoticed. This Award shines a light on those efforts — giving more builders the encouragement to keep going and take their careers to the next level."

Award winners will be featured across [The Top Voices media platform](#) — including the website, newsletter, YouTube channel, and LinkedIn community — reaching a global audience of tech builders, product leaders, venture capitalists and accelerators.

The application process is free and takes just 5–10 minutes. Submissions are open to individuals only, not companies or teams, and must be based on publicly available contributions. Candidates may apply themselves or be nominated by others.

For more information and to apply, [visit Tech Impact Awards 2025](#).

About The Top Voices:

The Top Voices is a community-driven media platform dedicated to giving a voice to early-stage startups, founders, and tech talent. Backed by over 3,000 entrepreneurs and tech enthusiasts worldwide, we value practical expertise and highlight the voices of people making a real impact.
