

BlueGrace Energy Bolivia Aligns with UK's Global Vision for Trusted Voluntary Carbon Markets

As the UK unveils plans to boost carbon credit markets, BlueGrace Energy Bolivia emerges as a leader with its traceable, tokenized climate solution.

LONDON, GREATER LONDON, UNITED KINGDOM, May 21, 2025

/EINPresswire.com/ -- Following the UK government's announcement of a comprehensive strategy to elevate voluntary carbon and nature markets, BlueGrace Energy Bolivia (BGEB) stands

ready to ride the wave—offering a robust, future-ready solution that transforms carbon credits into secure, compliant, and institutional-grade financial instruments.

“

With BGACT, we are transforming high-quality carbon credits into institutional-grade, tradable commodities—laying the foundation for credible climate finance and measurable environmental impact.”

Julio José Montenegro, CEO of BlueGrace Energy Bolivia

At the center of this innovation is the [Bluegrace Amazon Carbon Token](#) (BGACT), the world's first [ISIN-certified](#), blockchain-tokenized voluntary carbon credit, and a pioneer in aligning nature-based assets with the highest international standards, including MiCA (EU), CFTC (US), and VARA (Dubai) compliance. Representing over 2 billion tons of verifiable CO₂ sequestration, BGACT offers an asset-class level valuation, with each token backed by 1 ton of carbon captured across 20.5 million acres of protected Amazon rainforest.

□ From Vision to Execution: The UK's Market Integrity Agenda Meets BGACT's Delivery

The UK's 2025 initiative establishes clear principles for market transparency, environmental integrity, and financial trust in the voluntary carbon space. BlueGrace Energy Bolivia, through the development of BGACT, has already achieved these milestones and offers a functioning blueprint

for the kind of carbon market the UK envisions.

□ BGACT is not just a carbon offset—it is a financial-grade instrument that delivers:

- * □ ISIN Certification (ISO 6166) for international traceability and asset recognition
- * □ Regulatory Compliance with MiCA (EU), CFTC (US), and VARA (Dubai) frameworks
- * □ Continuous Issuance Model using a “compartment” mechanism tied to real-time carbon capture
- * □ Blockchain Security and Traceability via Ethereum Layer 2
- * □ Alignment with over 90% of UN Sustainable Development Goals (SDGs)

□ Transforming Offsets Into Institutional Tools

BGACT’s structure supports ongoing issuance as the forest continues to capture CO₂, creating a scalable, transparent system that ensures long-term credibility and liquidity. Unlike legacy credits plagued by fragmented oversight and unverifiable claims, BGACT delivers:

- * □ Auditable carbon sequestration at scale
- * □ ESG-compliant asset credentials
- * □ Compatibility with ESG-linked loans and sustainable portfolios
- * □ Exclusivity on the [NeXchange](#) platform for secure trading and investor access

□ Reinforcing the Bridge Between Climate Action and Capital Markets

BlueGrace’s innovation directly supports the UK’s “Plan for Change” by enabling voluntary markets to evolve into regulated, trusted, and economically viable platforms for climate finance. As global regulatory bodies increasingly treat carbon credits as environmental commodities, BGACT is uniquely positioned to integrate seamlessly with global financial systems.

High Integrity Voluntary Carbon Credits 2025

Bluegrace Amazon Carbon Token (BGACT)

Backed by Maximance 2030 Ltd., a UK-based asset manager with a robust equity base and full ISIN registration, the BGACT ecosystem represents a secure, transparent, and forward-looking investment framework.

BlueGrace Energy Bolivia

A global consortium of energy, environmental, business, and climate governance experts is committed to advancing the transition to a net-zero future in response to climate change challenges. Our team specializes in clean and renewable energy, boasting decades of experience in pioneering 21st-century energy transition projects. Grounded in professional expertise and unwavering integrity, we aim to create genuine value for business and society. Learn more at <https://bluegracebolivia.com/>
