

PDL Announces Renewed Investment In Technology

Investigation company to work with new service provider

UNITED KINGDOM, May 20, 2025 /EINPresswire.com/ -- Established private investigation company PDL has announced major new investment in technology. In working with a new service provider, PDL will benefit from access to AI and algorithmic tools, which will inform all the company's investigations more thoroughly, and at greater speed.

The technological investment will allow PDL to increase the range of information it can access on behalf of clients - individual and corporate alike - and to do so at a fraction of the time previously required.

“

Investment in technology has always been key to our success - but now we take that to the next level”

Senior private detective

This is intended to create improved outcomes for clients seeking success. Operations relying heavily on information will become quicker, and therefore more affordable - without sacrificing success rates.

Tim Boyd, Senior Private Detective at PDL - said “We’re

delighted to make this forward-thinking technological investment that will allow us to deliver solutions to our valued clients just as successfully as we always have - but faster, and at lower cost.” He continued, “Investment in technology has always been key to our success - but now we take that to the next level. Therefore, our confidence in our [person tracing](#) and [asset tracing Investigations](#) is at an all-time high, and yet our speed and efficiency are only improving, as is the cost-effectiveness of the solutions we offer.”

He closed, “We look forward to continuing to help private individual and corporate clients alike, using forward-thinking [AI and algorithms](#) to futureproof the trademark precision for which we’re

well known.”

About PDL:

PDL is a well-established private investigation company offering a comprehensive range of services to clients across the UK and worldwide.

Tim Boyd

Private Detective London
