diplomacy, governance, and communication. iChange Nations™ is committed to the development and expansion of solution-oriented initiatives brought forth by individuals and organizations.

It is the philosophy of Dr. Clyde Rivers, as well as the iChange Nations™ organization, that what gets praised gets practiced. Therefore, it is the practice of iChange Nations™ to draw attention to qualified individuals who are making a positive impact on their fellow man. In doing so, iChange Nations™ is bringing back the lost art of honor.

One of the focuses of iChange Nations™ is to create modern-day heroes who serve as examples to be seen, admired, and emulated. ICN recognizes individuals at all levels of society for their greatness.

In the words of Dr. Martin Luther King, Jr., “Everybody can be great...because anybody can serve. You don't have to have a college degree to serve. You don't have to make your subject and verb agree to serve. You only need a heart full of grace. A soul generated by love.” With these profound words, ICN acknowledges that true greatness is not a matter of position but rather a matter of disposition. ICN Modern Day Heroes have consistently demonstrated a service mentality through their actions, which are on display for others to see.

The newest ICN Modern Day Hero is Ambassador Dr. Sonya A. Robinson. She is a Renowned Business Strategist and the President and Founder of ICN [Congress for Global Communications](#).
