industry leading organization such as Healthgrades.”

Each year, Healthgrades recognizes the top hospitals nationwide that provide an exceptional experience for their patients during their hospital stay. As part of its annual analysis, Healthgrades evaluated over 3,000 hospitals that submitted at least 100 Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) surveys from patients treated between January 2023 and December 2023.

Healthgrades applies a comprehensive scoring methodology to determine the top hospitals that qualify for their Outstanding Patient Experience Award. The organization evaluated ten different patient experience metrics that focus on patients' perceptions of their hospital care, including staff communication, medication explanations and cleanliness. As a recipient of this award, PMC received high scores on these critical metrics.

"We commend Pioneers Medical Center for going above and beyond to ensure patients have the best possible experience during their hospital stay and recovery process," said Debra Gradick, MD FACEP, senior physician consultant at Healthgrades. "Better patient experiences lead to better health outcomes, which is why it's so important for patients to choose a hospital that excels at providing high quality, compassionate care."
