Dr. Thumbay Moideen

TFCOMS offers an internationally recognized program that cater to aspiring medical professionals. The flagship Graduate Entry Doctor of Medicine (MD) Program is a four-year curriculum aligned with global medical education standards. The program integrates advanced medical technologies, active learning methodologies, and extensive clinical training across diverse healthcare settings.

Dr. Thumbay Moideen, Founder and President of Thumbay Group, Prof. Sidikov Akmal Abdikakharovich, Rector of FMIPH and Prof Manda Venkataraman, Acting Chancellor of Gulf Medical University. At the Launch Ceremony of Thumbay Fergana College of Medical Sciences, Uzbekistan.

TFCOMS has academic affiliation with Gulf Medical University (GMU), UAE, ensuring the highest standards of medical education. The curriculum is designed in alignment with internationally accredited programs, integrating advanced teaching methodologies and clinical training. This collaboration allows students to benefit from GMU's expertise, research opportunities, and global network. Graduates will receive world-class education and career support, preparing them for successful medical careers worldwide.

Prof. Sidikov Akmal Abdikakharovich, Rector of FMIPH, highlighted the significance of this initiative: "This partnership brings together the rich educational heritage of FMIPH and the innovative approach of Thumbay Group. Our combined expertise will provide students with unparalleled opportunities in medical education." TFCOMS is poised to attract a diverse cohort of students from around the world, fostering a multicultural learning environment. The college offers modern facilities, experienced faculty, and a curriculum that emphasizes problem-based learning, early clinical exposure, and simulation training.

Prospective students can find more information and application details on the official website: <https://tfcoms.uz>
