Behavioral and Mental Health Software Global Market
Report 2025 – Market Size, Trends, And Global
Forecast 2025-2034

The ever-increasing need for solutions to cope with the burgeoning mental health crisis has propelled the growth of the behavioral and mental health software market. From a robust \$5.45

“

It will grow to \$12.71 billion
in 2029 at a compound
annual growth rate (CAGR)
of 18.7%.”

*The Business Research
Company*

billion in 2024, this market is projected to reach a
staggering \$6.41 billion in 2025, marking a significant
compound annual growth rate CAGR of 17.5%. The key
growth drivers behind this remarkable rise can be
attributed to various factors such as research and
evidence-based practices, heightened awareness, shift to
value-based care, amplified demand surge due to
escalating mental health crisis, government initiatives and
policy changes, and the global impact of the COVID-19

pandemic.

what influences await the future of the behavioral and mental health software market?

As anticipated, the market will see rapid growth in the coming years, projected to achieve a
whopping \$12.71 billion in 2029. That represents a hefty compound annual growth rate CAGR of
18.7%. Factors driving the growth in this forecast period include the increased focus on remote
monitoring and continuous care, personalized healthcare, shortage of mental health

professionals, supportive regulatory changes, and intensive policy reforms. The forecast period will witness several major trends including integration with healthcare ecosystems, wearable devices, user-friendly experience, and inclusive workplace mental health support.
