What's Behind the Market's Growth?

The innovative flipped classroom model of teaching is a prominent [growth driver in the educational services market](#). This model enhances the students' learning experience by fostering an interactive atmosphere within classrooms. In a flipped classroom scenario, students view lecture materials or video lectures as homework, ahead of class. The in-class sessions involve interactive discussions and collaborative works under the teacher's guidance. This model offers students the flexibility to consume lecture materials at their own pace and come to class prepared with specific questions.

What Are Key Companies Contributing To The Market?

Major companies operating in the educational services market encompass University of Michigan, Columbia University, Harvard University, Massachusetts Institute of Technology, Yale University, and TAL Education Group. These entities are pivotal to shaping the direction and depth of market growth.
