Where Is The Agentic Artificial Intelligence AI Government  
Market Headed In The Future?

Further analysis reveals that the agentic artificial  
intelligence AI government market size is set to continue  
its upward trend, predicted to reach \$10.21 billion in 2029

with a CAGR of 44.5%. This surge in the forecast period can be attributed to the increasing demand for automation, a growing emphasis on digital transformations, a rising demand for an enhanced customer experience, compounded by significant investments in AI research, and development. Major trends in the forecast period include AI governance platforms, automated compliance monitoring, autonomous decision-making systems, and strategic collaborations.

### What's Fueling The Growth Of The [Agentic Artificial Intelligence AI Government Market?](#)

Aiding this surge, the increasing demand for automation is a notable growth driver. Automation allows for the use of technology, systems, or machinery to perform tasks with minimal human intervention. The demand for automation - rooted in the need for improved public service delivery that streamlines operations - is on the rise. As a consequence, agentic AI, acting as a facilitating factor in the shift towards automation, has seen a significant uptick. Autonomous decision-making and process execution afforded by agentic AI enable governments to automate complex tasks such as policy enforcement, resource allocation, and citizen service management.

### Who Are The Key Players In The Agentic Artificial Intelligence AI Government Market?

Companies leading the drive in the agentic artificial intelligence AI government market include Amazon.com Inc., Microsoft Corporation, Accenture plc., NVIDIA Corporation, International Business Machines Corporation, Oracle corporation, SAP SE, BAE Systems plc., Capgemini SE, NTT DATA Group Corporation, Infosys Limited, Leidos Holdings Inc., DXC Technology Company, HCL Technologies Limited, Booz Allen Hamilton Holding Corporation, Zoho Corporation, OpenAI Inc., Mphasis Limited, UiPath Inc., Beam AI Inc.
