The Business Research Company

[environmental, social, and governance ESG consulting market](#) has witnessed rapid growth in recent years. From a market size of \$10.42 billion in 2024, it is estimated to ascend to \$11.89 billion in 2025 at a remarkable compound annual growth rate CAGR of 14.1%. This substantial growth within the historic period can be attributed to a myriad of factors including increasing

regulatory pressure, rising investor demand for sustainable practices, burgeoning corporate social responsibility CSR initiatives, expanding green finance and sustainable investments, and the early adoption of environmental, social, and governance ESG frameworks by large corporations.
