Calcineurin Inhibitors Global Market Report 2025

### What Is Driving the [Growth of the Calcineurin Inhibitors Market?](#)

The increasing incidences of organ transplants are anticipated to propel the growth of the calcineurin inhibitors market during the forecast period. Organ transplants are surgical procedures that replace a damaged or failing organ with a healthy one from a donor. The rising incidence of organ transplants are primarily due to the increase in cases of chronic diseases such as diabetes and hypertension, which lead to organ failure and drive the demand for transplantation. Calcineurin inhibitors are essential in organ transplantation as they inhibit T-cell activation, thereby preventing the immune system from identifying the transplanted organ as foreign and attacking it. This minimizes the risk of rejection, supporting long-term graft survival.

### Which Leading Companies Are Driving The Growth Of The Calcineurin Inhibitors Market Share?

Major companies operating in the calcineurin inhibitors market include Pfizer Inc., Roche Holding AG, Bristol-Myers Squibb Company, Novartis AG, Viatris Inc., Astellas Pharma Inc., Bausch Health Companies Inc., Huadong Medicine Co. Ltd., Sun Pharmaceutical Industries Ltd., Apotex Inc., Dr. Reddy's Laboratories Ltd., Cipla Ltd., Lupin Pharmaceutical Inc., Zydus Cadila, Biocon Limited, Glenmark Pharmaceuticals Ltd., Accord Healthcare Ltd., Strides Pharma Science Limited, Harrow Inc., and Panacea Biotec Ltd.

### What Are The Key Trends Driving The Growth Of The Calcineurin Inhibitors Market Size?

Major players in the market are focusing on developing immunosuppressive therapies, such as medications for autoimmune diseases, to help control excessive immune responses, reduce inflammation, and prevent tissue damage. A prominent example is Biocon Limited, an India-based biopharmaceutical company, which received approval from the South African Health Products Regulatory Authority SAHPRA for Tacrolimus in April 2024.

### How Is the [Global Calcineurin Inhibitors Market Segmented?](#)

The main products in the calcineurin inhibitors market are branded and generic drugs. Branded calcineurin inhibitors are patented immunosuppressant drugs marketed under a specific trade name by pharmaceutical companies, and are available in various dosages - tablets and capsules, ointments, injections, and others. They are used for organ transplantation, autoimmune diseases, among others, by different end-users including hospitals, homecare settings, and pharmacies.

### What are The Leading Region in the Calcineurin Inhibitors Market?

North America was the largest region in the calcineurin inhibitors market in 2024. Asia-Pacific is expected to be the fastest-growing region in the forecast period.
