rejuvenation services to the Lowcountry. Located in the heart of Isle of Palms, Younger You Aesthetics and Wellness is dedicated to helping clients achieve healthier, more radiant skin with the latest in cutting-edge technology. The studio proudly offers an advanced lineup of [Candela](#) devices, including the Nordlys™ for IPL and [laser](#) skin rejuvenation, PicoWay® for tattoo removal and pigmentation correction, and the revolutionary Matrix™Pro for non-invasive skin tightening.

About Nordlys®

The award-winning Nordlys® system is known globally, has been used by celebrities, and was featured in multiple media outlets, including the Today Show on NBC. Younger You Aesthetics and Wellness is now incorporating this system into its state-of-the-art practice to support total wellness and preventative care.

Nordlys® has established a new standard in Intense Pulsed Light (IPL) technology with its cutting-edge SWT® (Selective Waveband Technology) IPL narrowband system. This technology provides unparalleled precision, effectiveness, and safety in IPL treatments, addressing pigmentation concerns and vascular lesions, which supports overall skin health and well-being.

The Nordlys® Narrowband with SWT® offers exceptional outcomes with minimal discomfort and downtime, promoting a more holistic approach to wellness. Its customizable settings and targeted delivery ensure precise, individualized treatments, aligning with Biolite's preventive care philosophy.

About Picoway®

The Candela PicoWay® laser is an industry-leading technology designed to safely and effectively address a variety of skin concerns, from unwanted tattoos to pigmentation irregularities and overall skin rejuvenation. Using ultra-fast picosecond pulses, the PicoWay® delivers high-powered energy that shatters pigment particles beneath the skin without causing excessive heat damage to surrounding tissue. This results in faster healing, minimal discomfort, and fewer treatment sessions compared to traditional lasers. Ideal for all skin types, the PicoWay® is FDA-cleared to treat:

**Tattoo Removal** – Effectively removes multicolored tattoos, including difficult-to-treat blues and greens.

**Pigmentation Issues** – Targets sun spots, age spots, freckles, and melasma.

**Acne Scars** – Reduces the appearance of acne scars by stimulating collagen production.

**Fine Lines & Wrinkles** – Enhances skin texture and smoothness for a youthful appearance.

**General Skin Rejuvenation** – Improves overall skin tone and texture, resulting in a more radiant complexion.

With its advanced laser wavelengths (532nm, 785nm, and 1064nm), the PicoWay® can precisely target and break down even the most stubborn ink colors and deep pigmentation while minimizing downtime and maximizing results. Whether you're looking to erase a tattoo, brighten your skin, or restore a youthful glow, the PicoWay® is a trusted, innovative, and highly effective solution for achieving beautiful, lasting results.

#### About Matrix® Pro

The Matrix® Pro is the next evolution in fractional radiofrequency (RF) microneedling technology. This state-of-the-art device combines ultra-fine insulated needles with controlled RF energy to deliver precise, fractional thermal coagulation deep within the dermis. By creating micro-injuries and delivering RF-induced thermal stimulation, the Matrix Pro effectively triggers neocollagenesis and elastin remodeling, leading to improved skin tone, texture, and structural integrity. Clinically proven to target fine lines, wrinkles, acne scars, and skin laxity, this advanced system is safe for all skin types and offers customizable treatment parameters for tailored results. With minimal downtime and enhanced patient comfort, the Candela Matrix Pro is an
