*Seize Marketing Agency helps businesses adapt to Google's new AI Overviews with tailored SEO strategies.*

SURREY, BC, CANADA, May 27, 2025 /EINPresswire.com/ -- With Google's recent rollout of AI

“

If your content isn't optimized for AI understanding, featured snippets, and trust signals, you risk losing valuable organic traffic—even if you rank on page one.”

Overviews (formerly known as Search Generative Experience), the landscape of search engine visibility is undergoing a dramatic shift, and [Seize Marketing Agency](#) is at the forefront of helping businesses adapt.

The award-winning, Canada-based digital marketing firm, recognized as a [2025 Canadian Choice Award winner](#), has launched a new adaptive SEO service line specifically tailored to help businesses maintain and grow their visibility in an AI-dominated search environment.

## What Google's AI Overview Means for Businesses

Google's AI Overview now displays summarized answers directly in search results, reducing traditional clicks to websites. This shift has impacted how businesses should structure content, target keywords, and earn trust in Google's knowledge ecosystem. To stay competitive, brands must prioritize content that is authoritative, well-structured, and optimized for AI comprehension. Without these adjustments, even high-ranking pages risk being bypassed by AI-generated answers.

In response, Seize Marketing Agency has developed AI-Search Optimization, a proprietary approach that blends traditional SEO with AI-oriented strategies. This includes:

- 1) Structured Data Optimization
- 2) Expert Content Creation & EEAT Enhancement
- 3) Zero-Click Strategy Development
- 4) AI Snapshot Tracking & Reporting

## 5) Topical Authority & Content Clustering

### Helping Clients Stay Ahead of the Curve

Seize is already working with clients in the dental, legal, coaching, and ecommerce industries to future-proof their websites for AI-enhanced SERPs. The agency also offers free AI Search Readiness Audits to help business owners understand their current exposure risk and opportunity.

"This is not a time to panic—it's a time to pivot," added Sarah. "With the right content structure and authority signals, your business can win the AI game. Our goal is to help Canadian brands do just that."
