strategies for navigating the disruptions and opportunities inherent in our energy futures.” - Lawrence Jones, SVP, EEI International Programs.

Spitz’s keynote addressed:

- Foresight strategies for navigating the systemic disruptions and opportunities shaping our energy futures.
- Anticipatory leadership, systems innovation, and global ecosystem collaboration as enablers for sustainable futures.
- Frameworks for addressing the degrees of uncertainty in today’s unpredictable, complex, and interconnected world.

Now in its 9th year, GEF brings together thought leaders and practitioners to explore electrification as a pathway to sustainable development and climate resilience. EEI represents U.S. investor-owned electric companies, with 70 global affiliates and over 250 associate members worldwide.

“It was especially meaningful to speak at this year’s Edison Electric Institute GEF, where the conversation around our shared energy future has never been more urgent,” said Spitz. “I’m honored that EEI distributed special editions of my book to all attendees, reinforcing the importance of strategic foresight, future-preparedness, and resiliency in these unpredictable times.”

Spitz’s Washington D.C. appearances marked a pivotal moment in his global tour, reinforcing his role as a catalytic voice for shaping our futures with informed optimism, agency, and resilience.
