

SGS Announces Global Expansion of NRTL Network Following OSHA Approval

GENEVA, SWITZERLAND, May 29, 2025 /EINPresswire.com/ -- SGS, (SGS North America Inc.) is proud to announce approval from the Occupational Safety and Health Administration (OSHA) to expand its global network of Nationally Recognized Testing Laboratories (NRTLs) with new locations across Europe and Asia.

Effective January 22, 2025, SGS can test and certify products for the US market at five additional NRTLs located in:

- Brussels, Belgium
- Puchheim, Germany
- Yokohama, Japan
- Gyeonggi-do, Korea
- New Taipei City, Taiwan (China)

In addition, SGS gained OSHA approval to expand the scope of its NRTL labs to include the standard, ASME A17.5 Elevator and Escalator Electrical Equipment.

John Ciliege, Global Head of NRTL said:

"Congratulations to our laboratory teams for their hard work and dedication in achieving this accreditation. We are delighted that our high-quality, testing facilities and services have gained this further recognition from OSHA. It enables us to provide localized services to a wealth of new global clients looking to demonstrate their commitment to product safety and access North American markets quickly and efficiently."

The SGS logo, consisting of the letters "SGS" in a large, bold, grey sans-serif font. A thin orange vertical line is positioned to the right of the letters, and a thin orange horizontal line is positioned below the letters, intersecting at the bottom right.

SGS Connectivity and Products testing laboratory in Suwanee, USA

OSHA, part of the United States Department of Labor, aims to ensure that certain types of equipment is tested and certified for their safe use in the workplace.

SGS offers a full suite of E&E testing services for a wide range of products including audio-visual, IT, wireless, medical, household, lighting, and other consumer and industrial electrical equipment.

If a product meets the NRTL testing requirements it is permitted to carry the SGS North America Mark as a visible sign of its compliance. This demonstrates to manufacturers, suppliers, retailers, regulators and customers, an organization's commitment to product safety.
