

Blue Goat Cyber Reaches Milestone: 21 Episodes of The Med Device Cyber Podcast Now Available

21 episodes in, *The Med Device Cyber Podcast* continues to empower MedTech

teams with expert insights on cybersecurity, FDA compliance, and patient safety.

SCOTTSDALE, AZ, UNITED STATES, May 28, 2025 /EINPresswire.com/ -- Blue Goat Cyber, a global

“

This podcast reflects our mission—to raise cybersecurity awareness, help MedTech innovators succeed, and ultimately protect patients through secure, compliant technology.”

Christian Espinosa, Blue Goat Cyber Founder and CEO

leader in MedTech cybersecurity and FDA cybersecurity compliance consulting, has announced the release of the 21st episode of its medical device cybersecurity podcast series, *The Med Device Cyber Podcast*.

Co-hosted by Christian Espinosa, Founder and CEO, and Trevor Slattery, Chief Technology Officer, the podcast has become a trusted global resource for medical device manufacturers, regulatory affairs professionals, and product security teams. Each episode delivers practical, expert-led insights on securing connected devices, meeting regulatory expectations, and managing cybersecurity risk.

“This milestone reflects the industry’s demand for clear, actionable guidance,” said Espinosa.

“We’re proud to serve the MedTech community with the knowledge they need to stay ahead of threats and aligned with evolving regulations.”

“Our goal is to demystify cybersecurity and make it achievable at every stage of device development,” added Slattery.

Highlights from *The Med Device Cyber Podcast* Include:

- Insights on FDA and global cybersecurity guidance
- SBOM strategy and secure design best practices
- Threat modeling, patch planning, and postmarket risk management
- Expert guests from industry, regulatory agencies, and engineering teams

The podcast is available worldwide and continues to expand its audience among teams

preparing for market clearance, building connected technologies, or managing postmarket security programs.
