

# In-Depth Analysis Of The Global Continuous Positive Airway Pressure Devices Market: Key Drivers, Trends, Opportunities

*The Business Research Company's  
Continuous Positive Airway Pressure  
Devices Global Market Report 2025 –  
Market Size, Trends, And Forecast 2025-  
2034*

LONDON, GREATER LONDON, UNITED  
KINGDOM, May 29, 2025

/EINPresswire.com/ -- Are You Aware

Of The Strong Growth In The [Continuous Positive Airway Pressure Devices Market Size](#) In Recent Years?

The continuous positive airway pressure devices market has witnessed substantial growth, with predictions to scale from \$2.88 billion in 2024 to \$3.09 billion in 2025 at a compound annual growth rate CAGR of 7.1%. This growth during the historic period has been primarily driven by increasing awareness and diagnosis, a rise in the prevalence of sleep apnea, an increase in lifestyle diseases, a soaring demand for effective sleep apnea treatments, and an aging population.

Projecting Into The Future, What Is The Anticipated Growth Of The Continuous Positive Airway Pressure Devices Market Size?

The continuous positive airway pressure devices market size is expected to see robust growth in the next few years. It will grow to \$4.01 billion in 2029 at a compound annual growth rate CAGR of 6.8%. The growth in the forecast period can be attributed to increasing prevalence of sleep apnea and related comorbidities, a growing awareness and diagnosis of sleep disorders, an expanding healthcare infrastructure, increasing awareness and diagnosis, and increasing government initiatives. Major trends in the forecast period include integration with digital health technologies, advancements in telemedicine and remote monitoring, strategic collaborations and partnerships, and integration with digital health technologies.

What will drive the growth of the continuous positive airway pressure devices market moving

The Business  
Research Company

The Business Research Company

forward?

The increasing prevalence of sleep apnea, characterized by repeated interruptions in breathing during sleep due to airway collapse or obstruction, is projected to fuel the continuous positive airway pressure devices market growth. Factors driving the increasing prevalence of sleep apnea include rising obesity rates, an aging population, and sedentary lifestyles leading to respiratory issues and airway obstructions during sleep. CPAP devices play a crucial role in addressing sleep apnea by delivering a steady stream of pressurized air to prevent airway collapse during sleep. For instance, in February 2024, according to the GOV.UK, a UK-based government department, the rate of people sleeping rough on a single night in England was 6.8 per 100,000 in 2023, marking an increase from 5.4 per 100,000 in 2022. These factors underscore the increasing prevalence of sleep apnea and its potential influence on market growth.

### Which Companies Are The Major Players In The [Continuous Positive Airway Pressure Devices Market?](#)

Companies at the forefront of the market include Philips N.V., GE Healthcare Technologies Inc., ResMed Inc., Smiths Medical, Fisher & Paykel Healthcare, Invacare Corporation, Nova Medical Inc., Guangzhou HuaFang Medical Equipment Co Ltd, BMC Medical, Nihon Kohden Corporation, Apex Medical Corporation, Medline Industries, Medovent Solutions Inc., Shenzhen Well Motion Technology Co Ltd, DeVilbiss Healthcare, Circadiance Inc., Weinmann GmbH, Shenzhen Beneng Health Technology Co Ltd, Puritan Bennett, and Respiratory Care Innovations Inc.

### Emerging From The Latest Trends, How Are Major Companies Innovating Within The Continuous Positive Airway Pressure Devices Market?

Leading companies are focusing on developing innovative products such as next-generation continuous positive airway pressure CPAP devices to enhance patient comfort, improve compliance, and offer advanced data tracking capabilities. As an example, in January 2025, ResMed Inc., a US-based medical equipment company, launched the AirSense 11, a next-generation continuous positive airway pressure CPAP device designed to enhance sleep apnea treatment. The device features advanced digital health tools including a personal therapy assistant and a care check-in system, providing personalized guidance to users and making therapy adherence easier.

### What Does The Segmentation For The Continuous Positive Airway Pressure Devices Market Look Like?

The continuous positive airway pressure devices market is segmented by:

- 1 By Product: CPAP Mask, CPAP Motors, CPAP Hoses, Other Products
- 2 By Automation: Automatic, Manual
- 3 By Distribution Channel: Offline, Online
- 4 By End-Use: Home Care Settings, Hospitals And Clinics, Other End-Users

Subsegments include CPAP Mask types, CPAP Motors types, CPAP Hoses types, and Other Products types.

What Are The Regional Insights In The Continuous Positive Airway Pressure Devices Market? Can we get a regional insight into the continuous positive airway pressure devices market? In 2024, North America held the largest market share. However, Asia-Pacific is projected to be the fastest-growing region in the forecast period. Other key regions covered in the report are Western Europe, Eastern Europe, South America, the Middle East, and Africa.
