

Comprehensive Insights of Global Urinary Retention Therapeutics Market: Drivers, Trends, Opportunities, 2025–2034

*The Business Research Company's
Urinary Retention Therapeutics Global
Market Report 2025 – Market Size,
Trends, And Global Forecast 2025-2034*

LONDON, GREATER LONDON, UNITED
KINGDOM, May 29, 2025

/EINPresswire.com/ -- From \$3.33

billion in 2024, the urinary retention
therapeutics market size is expected to

grow strongly to \$3.58 billion in 2025, representing a compound annual growth rate CAGR of 7.5%. The growth during this historic period has been primarily driven by factors such as rising cases of urological disorders, increasing healthcare expenditure, a growing geriatric population globally, growing prevalence of urinary incontinence UI, and an increased risk of related urological disorders among individuals.

Where Is The Urinary Retention Therapeutics Market
Headed In The Future?

In the upcoming years, the urinary retention therapeutics market is set to see strong growth, reaching \$4.75 billion in 2029 at a compound annual growth rate CAGR of 7.3%. Key drivers for this forecast period's growth include the increasing demand for home-based care, a rise in cases of prostate cancer, burgeoning demand for minimally invasive procedures, growth in the number of research

projects, and an upsurge in the geriatric population. As the forecast period unravels, major trends will include the development of new and innovative treatment options, the emergence of advanced urinary incontinence devices, technological advancements, strategic partnerships and collaborations, invasive OTC devices, and wearables.

Urinary Retention Therapeutics Global Market Report
2025

What's Fueling [The Urinary Retention Therapeutics Market Growth?](#)

One of the primary growth drivers for the urinary retention therapeutics market during the forecast period is the increasing incidence of prostate cancer. Prostate cancer is a malignant condition characterized by the uncontrolled growth of cells in the prostate gland. The rising cases of prostate cancer are primarily influenced by demographic shifts, with more men living longer lives. As the population ages, the risk of developing age-related diseases, such as prostate cancer, naturally increases. Treatments for urinary retention are critical in prostate cancer as the tumor or an enlarged prostate can obstruct the urethra, impeding urination, and necessitating treatments to restore normal urine flow.

Which Companies Form The Backbone Of The Urinary Retention Therapeutics Market?

Major players in this market include Pfizer Inc., Merck KGaA, Abbvie Inc., Bayer AG, Sanofi SA, GlaxoSmithKline Plc., Medtronic Plc, Eli Lilly and Company, Boston Scientific Corp., Sumitomo Pharma Inc., among others. These companies have been instrumental in driving the market growth, contributing to advancements and innovations in urinary retention therapeutics.
