Tourette Syndrome Global Market Report
2025 – Market Size, Trends, And Global
Forecast 2025-2034*

LONDON, GREATER LONDON, UNITED
KINGDOM, May 29, 2025

/EINPresswire.com/ -- In recent years,
the [tourette syndrome market](#) has

shown rapid growth. The market value, which stood at \$1.95 billion in 2024, is expected to climb to \$2.16 billion in 2025, boasting a compound annual growth rate CAGR of 10.8%. This expansion has predominantly been driven by growing awareness about neurological disorders, a surge in the prevalence of tic disorders, increasing research on genetic influences, heightened funding for rare disease research, and the rising demand for personalized medicine.

Where Is The Tourette Syndrome Market Headed In The
Future?

Predictions portray the tourette syndrome market size on the verge of a growth spurt in the forthcoming years. Estimations suggest that the market will reach to a staggering \$3.20 billion by 2029 at a compound annual growth rate CAGR of 10.4%. Factors contributing to this

optimistic forecast include the emergence of public health initiatives focusing on neurological disorders, the escalating prevalence of co-occurring psychiatric conditions, innovative clinical trials exploring new treatment options, the demand surge for alternative and complementary therapies, and the increased use of natural and herbal remedies. The trend block for the forecast period showcases the advent of gene-based therapies, advancements in deep brain stimulation technology, the development of machine learning models for symptom prediction, the introduction of wearable neurofeedback devices, and the integration of virtual reality in behavioral therapy.

What's Fueling The [Tourette Syndrome Market Growth](#)?

A key market driver is the increasing government initiatives addressing neurological disorders. Government programs, policies, and actions aimed at addressing public needs, promoting growth, and improving societal well-being have a vital role in promoting tourette syndrome advancements. These initiatives enhance tourette syndrome research and management by increasing funding for research and treatment programs, which in turn lead to improved diagnostic tools, superior therapeutic options, and increased public awareness. Such initiatives strengthen patient care and support by driving advancements. A shining example from 2025 is the establishment of two Centres of Excellence CoRE dedicated to gene therapy research by the Medical Research Council MRC, a UK-based healthcare department, supported by funding up to \$65 million £50 million over 14 years.

Which Companies Form The Backbone Of The Tourettes Syndrome Market?

The tourettes syndrome market sees leading companies such as AstraZeneca PLC, F Hoffmann-La Roche AG, AbbVie Inc., Bayer AG, Sanofi S.A., Bristol-Myers Squibb, Novartis AG, Takeda Pharmaceutical Company Limited, Eli Lilly and Company, Viartis Inc., Teva Pharmaceutical Industries Ltd, Otsuka Holdings Co Ltd, Biogen Inc, Mitsubishi Tanabe Pharma Corporation, Eisai Co. Ltd., Jazz Pharmaceuticals plc, Kyowa Kirin Co. Ltd., Amneal Pharmaceuticals, Mallinckrodt Pharmaceuticals, Neurocrine Biosciences Inc at the forefront.
