

# ONEISALL MAKES ITS PROFESSIONAL GROOMING DEBUT WITH THE GRANDMASTER PRO CLIPPER

*Brand's First Pro-Grade Tool Designed for Working Groomers Who Demand Power, Precision, and Reliability*

CHINO, CA, UNITED STATES, May 29, 2025 /EINPresswire.com/ -- After earning the trust of millions of pet parents with its popular at-home grooming tools, OnelsAll is stepping into the professional grooming arena for the first time with the launch of the [Grandmaster Pro Professional Pet Clipper](#). Purpose-built for professional groomers and set to become the most efficient professional pet clippers on the market. This all-new clipper delivers the speed, durability, and performance required in high-volume grooming environments, without sacrificing the user-friendly design the brand is known for.

The Grandmaster Pro marks a major milestone for OnelsAll as it expands beyond the consumer space and enters the professional grooming market with a product developed specifically for working groomers. Designed in collaboration with grooming professionals, the clipper addresses key challenges of daily shop life: mat handling, grooming fatigue, battery downtime, and tool compatibility.

Key Features Tailored for Grooming Pros:

- Up to 60% Faster Grooming Time

High-performance blades provide ultra-smooth cutting with no snags or tugs, even on thick, curly, or matted coats, allowing groomers to complete trims in as little as 10–30 minutes per

pet.

- Nonstop Power with Swappable Battery System

Comes with two high-capacity, rechargeable batteries and a swappable design that delivers up to 90 minutes of cordless runtime per charge.

- Quiet, Low-Vibration Operation

Noise and vibration-reduction technology create a calmer experience for anxious dogs while helping groomers maintain focus and control, particularly important in busy salons or mobile units.

- Universal Blade Compatibility

The durable steel blade reduces the need for frequent replacements and is compatible with standard blades, giving professionals the flexibility to use their preferred setup.

- Ergonomic, Pro-Ready Build

Lightweight, balanced design minimizes hand fatigue during long grooming sessions. Built for durability and comfort, even in high-volume shops.

“We’ve spent years perfecting grooming tools for pet parents at home, and now, we’re excited to bring that same commitment to simplicity and performance to the professional world,” said Terry Zhang, Founder and CEO of OnelsAll. “Our research revealed a significant demand and gap in the professional grooming market, highlighting key pain-points for groomers. We saw an opportunity to apply our innovation and expertise to solve these challenges, leading to the development of the Grandmaster Pro. This product represents our first step into the professional grooming category, which has been engineered from the ground up to meet the needs of groomers who work with dogs all day, every day.”

The OnelsAll Grandmaster Pro Professional Pet Clipper is available now on [Amazon](https://www.amazon.com) and [OnelsAll.com](https://www.onelsall.com), starting at \$129.99. The complete kit includes the clipper, two rechargeable batteries, multiple guide combs, and maintenance tools.
