This sales partnership underscores both companies' commitment to improving access to high-quality, patient-centered enteral nutrition products across the United States.

“We're thrilled to partner with U Deliver Medical as our online sales partner, making Mobility+®—the world's first elastomeric enteral feeding system—available for patients and caregivers to purchase directly online,” said Tomas Thompson, CEO and Founder of Rockfield Medical Devices. “This collaboration allows us to extend the reach of our

innovative Mobility+ in the U.S.”

“The Mobility+® elastomeric enteral feeding system complements U Deliver Medical's existing range of enteral feeding products, which includes the Bolee® Bag and Bolink® Caps. Mobility+® provides patients at home, who require a pump for tube feeding, an innovative solution,” said Brian Johnson, President and Co-Founder of U Deliver Medical. “We're pleased to add it to the

OTC tube feeding products in our online store, furthering our mission of Making Tube Feeding Easy.”
