The [workplace wellness market size](#) has seen considerable growth in the previous years, moving from \$54.24 billion in 2024 to a projected \$57.91 billion in 2025. This represents a compound annual growth rate CAGR of 6.8%.

This growth in the historic period seems to be attributable to rising healthcare costs, growth of corporate social responsibility CSR, increased chronic disease prevalence, government regulations, and growing awareness of mental health issues.

What Is The Anticipated [Growth Of The Workplace](#)

[Wellness Market](#) Size?

The market size is projected to further increase significantly, reaching approximately \$74.57 billion in 2029 at a CAGR of 6.5%. The growth in the forecast period can be traced back to the rising demand for holistic wellness programs, growing awareness of mental health, increasing health insurance premiums, rising emphasis on chronic disease prevention, and an increased demand for customized wellness programs. Major trends indicating the forecast period include

AI-driven personalized wellness, telehealth integration, wearables and health trackers, integration with HRMS, and AI-powered chatbots.
