- Proprietary Methodologies & Frameworks: The book's Frameworks are adopted by organizations worldwide, praised for their practical, actionable insights and comprehensive approach to navigating an unpredictable world. Spitz's work is lauded for its unique and compelling frameworks, providing a vital roadmap for navigating systemic disruption. 'Disrupt With Impact' covers the UN-VICE Framework (Unknown, Volatile, Intersecting, Complex, Exponential) as a superior diagnostic for our global reality, offering deep understanding of pervasive, interconnected, and accelerating change. At the heart of Spitz's actionable guidance lies the widely adopted AAA Framework (Antifragile, Anticipatory, and Agility); hailed by reviewers as a "new operating system for today's deeply uncertain world." The book's Disruptive Thinking Canvas operationalizes these insights as an "essential practice." Finally, the 6 i's Framework: Intuition, Inspiration, Imagination, Improvisation, Invention, and Impossible, enables a mindset shift to harness uncertainty for transformation.

- Mastering the Language of Disruption: Spitz's timely concepts extend to the core of human existence in a technological age. He coined Techistentialism to delve into AI's profound implications for human agency and decision-making, urging re-evaluation of human capabilities. Simultaneously, Info-Ruption addresses the critical disruption of information itself. Complementing this, Spitz's coinage of Metarruptions is a game-changer, defining them as "multidimensional family of systemic disruptions that cause widespread, self-perpetuating effects". This compels a holistic approach to foresight, recognizing today's challenges as cascading forces altering disruption itself.

- Informed Optimism: The book advocates for informed optimism, injecting a crucial motivational dimension into foresight, inspiring positive change and shaping desirable futures. 'Disrupt With Impact' culminates in a powerful call for a fundamental mindset shift in leadership

with futures intelligence, from “predict-and-act” to “prepare-and-adapt.”

- Critical Acclaim: ‘Disrupt With Impact’ was awarded a rating of 4.5 out of 5 by San Francisco Book Review. BookTrib celebrated it as “pure gold,” affirming that it rises above the competition in the crowded business genre. For Midwest Book Review: “Disrupt With Impact is an extraordinary addition to Business Management collections and supplemental MBA curriculum reading lists.”
