

# Planet TV Studios Presents New Frontiers: Innovators Shaping Tomorrow. The content in the episode is a Planet TV Studios Original & it is brought to you by & sponsored by Planet TV Studios.

*Planet TV Studios proudly serves as the exclusive sponsor of the New Frontiers series. New Frontiers: "Highlighting Emerging Technologies" will air May 31st 2025 on Bloomberg Television at 5:00 pm ET.*

BOCA RATON, FL, UNITED STATES, June 1, 2025 /EINPresswire.com/ -- [Planet TV Studios](https://www.planetstvstudios.com) is proud to announce a groundbreaking episode of their acclaimed series, [New Frontiers](https://www.newfrontiers.tv), airing Saturday, May 31st, 2025, at 5:00 pm ET on Bloomberg Television. This special episode shines a spotlight on four innovative businesses revolutionizing their respective industries through cutting-edge advancements and visionary leadership. Featuring Athena Clinic, MonDak Portables, LLC., NeOnc Technologies Holdings, Inc., and Hollobus Technologies, viewers will witness firsthand how innovation directly impacts global communities, industries, and everyday lives.

Planet TV Studios

Athena Clinic

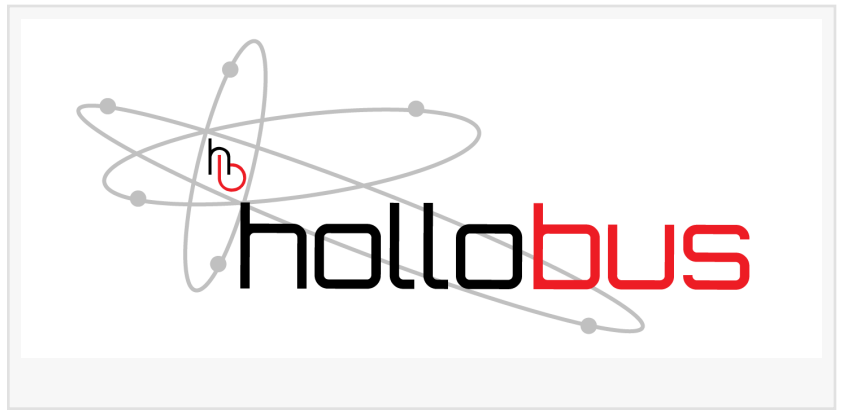

MonDak Portables, LLC

NeOnc Technologies Holdings, Inc.

Athena Clinic: Revolutionizing Patient-Centric Surgical Care

Athena Clinic, spearheaded by internationally renowned plastic surgeon Dr. Daniel Murariu, is transforming the landscape of reconstructive and cosmetic surgery through state-of-the-art technologies and a deeply personalized approach. Based in Honolulu, Hawaii, Athena Clinic has established itself as a beacon of innovation by leveraging robotic-

assisted surgeries, particularly through the use of the Da Vinci Surgical System. This revolutionary technology provides unprecedented precision, minimized invasiveness, reduced recovery times, and significantly improved outcomes for patients undergoing complex breast and pelvic reconstruction procedures.

Athena Clinic's approach exemplifies patient-centric healthcare, prioritizing both physical and emotional healing. Patients experience faster recoveries, reduced postoperative discomfort, and better long-term results, significantly enhancing quality of life. Dr. Murariu's expertise has not only set new standards in surgical excellence but has also provided groundbreaking insights into how technological advancements can profoundly reshape healthcare.

Viewers tuning into this special New Frontiers episode can expect to gain an insider's perspective into Athena Clinic's revolutionary techniques and hear from patients whose lives have been dramatically transformed by Dr. Murariu's pioneering work.

#### MonDak Portables, LLC: Innovating Sustainable Solutions in Portable Sanitation

MonDak Portables has carved out a unique niche by reimagining sustainable solutions for oilfields, disaster relief, government work and even solutions for foreign countries.. MonDak Portables has pushed the boundaries by introducing sustainable, eco-friendly innovations that significantly enhance environmental stewardship.

Recognizing the environmental and logistical challenges inherent in remote locations, MonDak Portables integrate advanced technology such as solar-powered facilities, biodegradable sanitation products, and intelligent waste management systems. These innovations not only reduce ecological footprints but also improve hygiene standards and user experiences significantly.

The New Frontiers episode will reveal how MonDak Portables addresses critical environmental concerns, navigating logistical challenges with ingenuity and foresight. Viewers will learn how this company plays a pivotal role in promoting sustainable practices within construction, events, and remote worksite industries and ultimately influencing global manufacturing standards.

## NeOnc Technologies Holdings, Inc.: Pioneering Cancer Treatments and Neurosurgical Innovations

NeOnc Technologies Holdings, Inc. stands at the forefront of medical innovation, revolutionizing cancer treatment through novel therapeutic solutions designed explicitly for brain cancer treatment. At its core, NeOnc is committed to making a meaningful difference in the fight against aggressive brain tumors, such as glioblastoma multiforme. Dr. Thomas Chen, M.D., PhD, Vice Chair of Neurosurgery at Keck School of Medicine. Also, the Director of the Brain Tumor Center has spearheaded NeOnc as a leader in overcoming the blood-brain barrier.

Through the development of NEO100 and NEO 212 represent cutting edge solutions for brain tumor treatment, NeOnc Technologies is redefining expectations around neurosurgical oncology. These innovative approaches are not only significantly able to enhance patient care but also foster hope among individuals and families impacted by devastating neurological cancers.

In this informative episode, viewers will realize how Dr. Thomas Chen, M.D., PhD delves into his pioneering work in developing intranasal drug delivery. NeOnc's groundbreaking research and compassionate care model are set to transform lives globally. The episode highlights the broader implications of this innovative therapeutic approach, demonstrating NeOnc's critical role in advancing cancer treatment methodologies and neurosurgical practices.

## Hollobus Technologies: Reinventing Sustainable Data Centers

Martin Cox is an industry leader in power feeder design and the founder of Superior Tray Systems Inc. With decades of success spanning materials science, design engineering, and manufacturing, he has pioneered advancements in medical fabrication, naval rescue systems, and electrical distribution. Recognizing stagnation in the industry, Martin leveraged extensive research and development to create HOLLOBUS, a groundbreaking solution poised to revolutionize power distribution.

As the holder of the most patents in the field (awarded and pending), Martin is deeply involved in shaping industry standards through committee work, including code development for the electrical sector. A former instructor and mentor, he also leads STS Lunch & Learn sessions, earning participants Engineering Continuing Education (ECE) credits.

Martin's commitment to innovation and sustainability drives Hollobus' leadership in cutting-edge manufacturing and design. His unparalleled expertise ensures every project is engineered and manufactured to the highest standards, setting a new benchmark for the industry.

Viewers of the New Frontiers special will gain an in-depth look at Hollobus's unique, sustainable methodologies, exploring the technological advancements and visionary strategies that position the company as an industry leader. This episode underscores the importance of sustainable infrastructure innovations in maintaining environmental integrity amidst an increasingly data-

driven world.

## About Planet TV Studios' New Frontiers Series

Planet TV Studios' acclaimed New Frontiers documentary series is dedicated to uncovering innovative companies and visionary leaders shaping our future. Known for its insightful, engaging approach, the series provides audiences with an up-close examination of breakthroughs in various industries, from healthcare and technology to environmental sustainability and beyond.

Host [Gina Grad](#) brings expertise, curiosity, and journalistic rigor, ensuring each episode informs, educates, and inspires. Through in-depth interviews, behind-the-scenes footage, and powerful storytelling, New Frontiers continues to illuminate the work of pioneers dedicated to improving lives, industries, and the planet.

## Tune In and Experience Innovation Firsthand

Do not miss this special episode of New Frontiers, airing on Bloomberg Television on Saturday, May 31st, 2025, at 5:00 pm ET. Witness the stories behind Athena Clinic, MonDak Portables, NeOnc Technologies Holdings, Inc., and Hollobus Technologies, and explore how these innovators are creating significant and lasting impacts on our world.
