

InventionHome® Product Developer Creates Ultimate All-Terrain Cooler for Outdoor Adventures

PITTSBURGH, PA, UNITED STATES, June 2, 2025 /EINPresswire.com/ -- Brent M. of Los Angeles, CA is the creator of the Pull-Around Ice Chest Barrel Cooler, a game-changing solution for outdoor enthusiasts, campers, beachgoers, and tailgaters that combines rugged design with ease of mobility, making food and beverage transport more convenient than ever. Unlike conventional coolers that can tip, drag, or become nearly impossible to carry across sand, gravel, or trails, the Pull-Around Ice Chest Barrel Cooler features a durable round barrel construction designed to roll smoothly over a wide variety of terrains including rocky paths, beach sand, dirt trails, and even shallow water.

The cooler is equipped with a pull handle that folds under the barrel and to prevent the cooler from inadvertently rolling. Whether navigating uphill, hiking downhill, or maneuvering along a shoreline, this all-terrain cooler ensures a stable, spill-free journey. For added versatility, the cooler can even be pulled behind small boats or canoes.

The main key features of the cooler include:

- Barrel-shaped construction for stability and smooth rolling.
- Foldable handle that keeps the cooler in place and prevents it from rolling away.

- Multi-use capability is ideal for camping, tailgates, beach trips, boating, and more.
- Spacious, insulated compartment to keep food and beverages cold.

The Pull-Around Ice Chest Barrel Cooler was created to solve real-world problems like getting coolers from the car to a destination without causing significant inconvenience or fatigue. Instead of getting tired of lugging the cooler to a destination, people can enjoy their time at the beach, tailgating, camping, and more. With its rugged durability and unmatched convenience, the Pull-Around Ice Chest Barrel Cooler is set to become the go-to gear for any manufacturer looking to expand their product line with an idea providing versatility without compromising on comfort or convenience.

Brent filed his Utility Patent with the United States Patent and Trademark Office (USPTO) and is working closely with [InventionHome](https://www.inventionhome.com), a leading invention licensing firm, to sell or license the patent rights to his Pull-Around Ice Chest Barrel Cooler product. Ideal licensing candidates would be U.S. based product manufacturers or distributors looking to further develop and distribute this product innovation.

Companies interested in the Pull-Around Ice Chest Barrel Cooler can contact InventionHome at member@inventionhome.com. Inventors currently looking for assistance in patenting, marketing, or licensing their invention can request information from InventionHome at info@inventionhome.com or by calling 1-866-844-6512.

About InventionHome®

InventionHome® is a top-rated invention marketing and product licensing company dedicated to helping inventors successfully patent, prototype, and promote their new product ideas. From securing intellectual property to connecting with potential licensees, InventionHome® offers a streamlined path to commercialization.
