

Premier Well Drilling Brings Clean Water to Northwest Florida—and Across the Globe

PENSACOLA, FL, UNITED STATES, June 2, 2025 /EINPresswire.com/ -- Premier Well Drilling, a family-owned company serving Northwest Florida since 2008, is doing more than providing top-quality water wells for local homeowners and businesses; they're changing lives around the world. Through a powerful partnership with Living Water International, Premier Well Drilling has helped drill 20 clean water wells in countries like Guatemala, Honduras, and Chad, Africa, giving thousands of people access to safe, life-sustaining water.

Owned and operated by father and son Randy and David Hinesley, Premier Well Drilling has become a trusted name in Okaloosa, Walton, and Santa Rosa Counties. Their local reputation for honest work and expert service now fuels a global mission to bring hope to communities in desperate need of clean water.

"Clean water is something most of us take for granted," said David Hinesley. "But for families in some parts of the country and world, it's a daily struggle. We feel called to use our resources and knowledge to make a difference, both here at home and abroad."

Premier will be donating a portion of the proceeds from each local well project to fund international drilling through Living Water International, a faith-based nonprofit that helps communities gain safe, sustainable access to clean water and hygiene education.

"When our customers hire us, they're not just investing in their own property—they're joining a mission to bring life and health to places where water is a daily crisis," added David Hinesley.
