

Rising Star Talks about the Importance of Comprehensive Vision Care Treatments

SAN RAFAEL, CA, UNITED STATES, June 3, 2025 /EINPresswire.com/ -- Rising Star Optometry, based in San Rafael, California, has been serving the community for over two decades with a focus on comprehensive eye care and [vision therapy](#). Founded by Dr. David Grisham, a former chief of the Binocular Vision Clinic and lecturer at

UC Berkeley School of Optometry, the clinic emphasizes addressing visual challenges that impact daily life. Since 2005, Dr. Jeremy Shumaker has expanded the practice's services to include pediatric and specialty contact lens fittings, [myopia control](#), and vision training for sports performance and concussion rehabilitation.

Vision Care Treatments

The clinic offers a range of services tailored to various age groups and needs. These include comprehensive eye exams, vision therapy for learning-related issues, [post-concussion vision rehabilitation](#), and treatments for conditions like dry eye and myopia. Recognizing the increasing prevalence of screen-related eye strain and myopia, the clinic provides early detection and management strategies to address these concerns.

Understanding that some visual impairments may not present immediate symptoms, Rising Star Optometry further stresses the importance of regular eye examinations.

Such proactive measures can aid in the early detection and management of potential issues, contributing to long-term visual health. With locations in both San Rafael and San Francisco, the clinic extends its services to a broader community.

For more information about Rising Star Optometry and the services it provides, visit their website or call 415-459-2020.

About Rising Star Optometry:

Rising Star Optometry is dedicated to providing exceptional vision care for patients of all ages. Founded by Dr. David Grisham nearly 20 years ago and expanded by Dr. Jeremy Shumaker in 2005, the practice combines cutting-edge technology with compassionate care.
