Market Sizing & Forecasts
Through 2034"

*The Business Research
Company*

Forecasted growth in the drywall and insulation contractors area is robust with a solid compound annual growth rate CAGR of 9.9% from \$519.87 billion in 2024 to \$571.09 billion in 2025. Several factors can be attributed to this rise - a booming construction and real estate sector, dynamic housing market trends, more stringent energy efficiency and building codes, an increase in renovation and remodeling activities, and rapid population growth and urbanization.

What Is The Future Outlook For The [Drywall And Insulation](#)

[Contractors Market Size?](#)

Heading further into the future, the market size is expected to see even stronger growth, to \$807.82 billion in 2029. This surge will be driven largely by sustainable construction practices, government incentives for energy efficiency, green building certifications, affordable housing initiatives, and the uptake of smart home technologies.

What Is Propelling The [Drywall And Insulation Contractors Market Growth](https://www.thebusinessresearchcompany.com/report/drywall-and-insulation-contractors-global-market-report)?

Key drivers influencing the drywall and insulation contractors going forward include an increase in the number of residential constructions. These constructions involve the creation of new spaces or the renovation of old spaces. Building apartments, and housing units for personal occupancy are some instances. Essential tasks such as dry walling, plastering, and insulation for residential buildings or spaces are performed by drywall and insulation contractors. Particularly vital during chilly winters and windy months, these methods considerably reduce drafts. Their primary role is to maintain a home's temperature with the aid of an additional layer.
