

Burnett Affordable Buildings Extends Reach to Shed Buyers in Arkansas and Oklahoma Through ShedHub

MULDROW, OK, UNITED STATES, June 3, 2025 /EINPresswire.com/ -- Since joining the [ShedHUB](#) online marketplace in 2023, [Burnett Affordable Buildings](#) has remained active across Oklahoma and Arkansas, where customers can find prefabricated [storage sheds](#), barns, cabins, greenhouses, chicken coops, and other portable buildings through the platform.

Burnett Affordable Buildings operates more than 25 sales locations throughout both states. In Oklahoma, locations include Alderson, Ardmore, Blanchard, Cleveland, Davis, Pryor, Marlow, Miami, Muskogee, Nicoma Park, Pocola, Purcell, Roland, Sallisaw, Skiatook, and Tecumseh. In Arkansas, locations are situated in Beebe, Charleston, Clarksville, Conway, Farmington, Hot Springs, and Russellville.

Buildings are delivered fully assembled and placed directly on the customer's property. Structures are available in a variety of configurations and materials, including stained T1-11 wood siding, LP SmartPanel, and steel siding. Roofing options include shingles and metal panels, with color choices spanning multiple finishes and coatings. Many buildings are used for general utility storage, livestock shelter, workshops, recreational cabins, or personal-use greenhouses and playhouses.

All Burnett structures are eligible for a rent-to-own purchase option. Terms include no credit check, fixed monthly payments, the ability to buy out early with no penalty, and the option to return the product at any time without further obligation. This model is intended to serve as an alternative to traditional off-site storage units.

Each building sold through Burnett comes with warranty coverage. Standard wood-frame structures carry a 5-year warranty covering materials and workmanship. Additionally, the metal siding and roofing utilize Panel-Lock Plus™ CentralGuard® coatings, which carry a limited lifetime warranty on paint, a 30-year fade warranty, and protection against rust and denting.

Customization is available for most models. Buyers can select building size, siding type, roofing style, door and window placement, and other features. Custom quotes are available through ShedHUB's online platform, and Burnett also provides a 3D configurator on its website to aid in visualization.

Burnett's inventory is manufactured off-site and delivered pre-built, helping streamline the installation process for customers. According to the company, most buildings do not require a new foundation, although local permitting requirements vary.

ShedHUB users can view Burnett's full selection of portable buildings, browse and compare models, and submit quote requests directly through the site.

ShedHUB, launched as an independent online marketplace for portable buildings, has grown into a widely used resource for shed shoppers across the United States. It allows consumers to browse and compare inventory in one place and provides buyers with access to detailed product listings, dealer contact information, and transparent quote request tools.
