

GFT Honored in 2025 TITAN Business Awards for Reducing Major U.S. Private Equity Firm's Costs by Over 87%

The Company Received Awards in Two Categories for Transforming the Financial Institution's Architectures with AWS

NEW YORK CITY, NY, UNITED STATES, June 5, 2025 /EINPresswire.com/ -- Global digital transformation company [GFT](#), has been honored in two categories of the 2025 TITAN Business Awards, winning Gold in the Innovation in Cloud Technology category as well as Silver in the Digital Transformation category. These wins recognize GFT's work leveraging the AWS ecosystem to improve security, optimize performance and deliver dramatic cost efficiencies for a leading U.S. private equity firm.

When the firm came to GFT they were facing spiraling costs and resource-intensive continuous integration and continuous delivery (CI/CD) architecture that was creating errors and inefficiencies instead of streamlining the development process. To solve this, GFT developed a solution tailored to the clients objectives and implemented AWS-enabled CI/CD architecture to address the concerns with their current infrastructures. In just six months the private equity firm reduced costs by over 87%, equating to 420,000 dollars in annual savings.

"Financial institutions in the U.S., from private equity firms to banks, are at a crossroads as technology permeates every facet of their operations," said Rishi Chohan, CEO USA of GFT. "One size fits all solutions are not enough to truly accelerate in the market. In order to succeed, firms need tailored technology solutions in order to solve their unique challenges. We are honored to receive this recognition for our work helping a top private equity firm address this need."

GFT's recognition highlights its role as a financial powerhouse, utilizing the expertise derived from 35 years in the space, to modernize legacy infrastructures and automate processes so that traditional financial institutions can compete with rising digital opponents.

The TITAN Business Awards celebrate organizations and leaders pushing industries forward through innovation, strategy and impact. Organized by the International Awards Associate (IAA), the program received over 5,000 entries from more than 60 countries across sectors including technology and finance.

All entries were judged blindly by a panel of industry experts from leading organizations,

including Amazon Web Services and JP Morgan Chase.
