

NovoaGlobal® and City of Chiefland Partner to Enhance School Zone Safety with Automated Speed Enforcement

NovoaGlobal to Provide First Automated School Zone Speed Enforcement Program in Levy County

CHIEFLAND, FL, UNITED STATES, June 6, 2025 /EINPresswire.com/ --

[NovoaGlobal®](#), a leading provider of advanced traffic safety and enforcement technology, is proud to announce that it has entered into a contract with the [City of Chiefland, Florida](#) to implement and manage a new Automated [School Zone Speed Enforcement Program](#). This program is the first School Zone Speed Enforcement Program in Levy County.

Automated Enforcement in School Zone

“

Chiefland is taking proactive steps to create a safer environment for its residents. We are honored to support their efforts in protecting students and reducing dangerous driving behavior.”

Carlos Lofstedt, President and CEO of NovoaGlobal

This initiative is part of the city’s ongoing commitment to improve road safety and reduce speeding in designated school zones. Excessive speeding has become an increasing concern in Chiefland, endangering students, families, and the broader community. The new program will use automated photo enforcement technology to identify and deter speeding violations in school zones, areas where children are most at risk.

“By deploying this system, the City of Chiefland is taking proactive steps to create a safer environment for its residents,” said Carlos Lofstedt, President and CEO of NovoaGlobal. “We are honored to support their efforts in

protecting students and reducing dangerous driving behavior.”

The presence of automated enforcement will serve as a strong deterrent to speeding and

promote safer driving habits—particularly during school zone beacon times and school hours, when vulnerable road users are most present.

NovoaGlobal has successfully implemented similar programs in municipalities across Florida and the country, helping communities save lives through intelligent traffic safety solutions.
