

ProSat Networks Expands Starlink Installation and IT Network Services in Mississippi

ProSat Networks a professional Starlink installation and IT network services company, expands in Mississippi to include Starlink with wireless networking.

HATTIESBURG, MS, UNITED STATES, May 22, 2026 /EINPresswire.com/ -- ProSat Networks 1-844-799-0258, a Starlink installation and IT network solutions provider, announced expansion of their service offerings in Mississippi to include [professional Starlink installation](#) coupled with commercial-grade wireless networks designed and supported by certified network engineers, indoor-outdoor long-range wireless networking, access control, low-voltage data cabling, security camera systems and ongoing onsite & remote managed IT services (MSP).

The advertisement features a large image of the Mississippi state flag on the left. On the right, there are several hexagonal inset images showing Starlink satellite dishes being installed on various structures, including a utility pole, a roof, and a building. The text at the top of the ad reads "PROSAT NETWORKS" in yellow and blue, followed by "STARLINK INSTALLATION AND IT NETWORK SOLUTIONS IN MISSISSIPPI" in white and yellow, and the phone number "1-844-799-0258" in yellow. At the bottom, there are two icons: a globe with the URL "https://ProSatNetworks.com/" and an envelope with the email "contact-us@prosatnetworks.com". Below the ad image, the text reads "Starlink installation and wireless networks in Mississippi by ProSat Networks 1-844-799-0258".

As the Magnolia State of Mississippi continues adopting LEO (low-Earth-orbit) satellite broadband internet technologies and better, faster more reliable WiFi network solutions, ProSat Networks is uniquely positioned to support the growth and internet connectivity challenges that face Mississippi's small to mid-sized and enterprise businesses, residential homes, mobile vehicles and maritime market segments.

"Mississippi is experiencing tremendous growth in key industries from agriculture and manufacturing to aerospace and energy sectors. ProSat Networks Starlink installation and IT network support solutions are specifically designed to meet Mississippi's businesses, residential homes, mobile vehicles, [Starlink for construction](#) and maritime growing demands for Starlink internet combined with IT network design, installation, remote and onsite support. Whether it's a manufacturing facility in Tupelo, an agricultural operation in the Mississippi Delta, or Starlink for maritime business along the Gulf Coast, ProSat Networks is here to support Mississippi's Starlink

and IT support needs." Stated a spokesperson from ProSat Networks.

BRIDGING MISSISSIPPI'S DIGITAL DIVIDE

The Magnolia State's diverse geography spanning the fertile Mississippi Delta, pine belt forests, hill country and Gulf Coast regions create significant connectivity challenges that traditional internet service providers struggle to address effectively.

Recent broadband assessment data indicates approximately 200,000 Mississippi locations remain classified as "unserved" or "underserved" regarding high-speed internet access.

Many rural businesses, agricultural operations and residential communities face either complete lack of broadband availability or prohibitively expensive legacy satellite solutions that fail to meet modern business requirements.

“

Lightning-fast Starlink LEO satellite internet combined with commercial-grade IT network design, expert installation and managed support for All of Mississippi, from the Gulf Coast to the Delta!”

*ProSat Networks
spokesperson*

"Mississippi represents a dynamic business environment with tremendous growth potential. From manufacturing operations in Tupelo's furniture corridor to seafood processing facilities on the Gulf Coast, from precision agriculture in the Delta to aerospace operations in North Mississippi—businesses demand reliable, high-performance internet connectivity. Our Starlink installation expertise combined with IT infrastructure services ensures businesses throughout Mississippi can access the connectivity they need to compete and grow," explained a ProSat Networks spokesperson.

Mississippi Statewide Coverage

ProSat Networks provides Starlink and WiFi network design, installation and support services throughout Mississippi:

☐☐ Central Mississippi

Jackson, Pearl, Clinton, Ridgeland, Madison, Flowood, Brandon, Byram, Terry, and surrounding communities in Hinds, Madison, Rankin and Copiah Counties.

☐☐ Gulf Coast Region

PROSAT NETWORKS

PROSAT NETWORKS SERVICES

- Professional Starlink installation
- Managed WiFi Networks
- Wi-Fi-Network Design, Installation & Support
- Wireless Kinetic Mesh Networks
- Data Cabling: Cat5, Cat6, Fiber Optic
- PSN MITS (Managed IT Services)
- C-Level Strategic IT Consulting
- Security Camera Systems
- Unified IT Network Solutions for:
 - Agriculture & Farming
 - Constructions Sites/Construction Trailers
 - Mines: Surface and Subterranean Mining
 - Marinas & Ports (techs with TWIC cards)
 - RV Parks, RV Resorts & Campgrounds
- Guest Internet Systems (GIS)
- Starlink Pooled Data Plans

ProSat Networks 1-844-799-0258 Starlink and WiFi installers Mississippi

[Starlink business installation](#) and WiFi Networks for Mississippi Commercial Sector:

ProSat Networks offers end-to-end Starlink for business installation and IT network integration services designed for Mississippi's key economic sectors:

□□ Agriculture & Agribusiness

Mississippi's agricultural heritage includes cotton, soybeans, rice and catfish farming operations throughout the Delta and across the state.

Agricultural businesses increasingly depend on internet connectivity for precision agriculture, commodity trading, equipment monitoring and operational management.

□□ Manufacturing & Industrial

Mississippi's manufacturing sector including furniture production in Tupelo, automotive manufacturing, and advanced materials processing requires reliable connectivity for supply chain management, quality control systems and operational technology networks.

□□ Maritime & Seafood Industry

Mississippi's Gulf Coast supports commercial fishing, seafood processing, shipbuilding and maritime logistics. ProSat Networks provides maritime Starlink installations and coastal connectivity solutions for ports, marinas and vessel operations.

□□ Forestry & Timber Operations

With extensive pine forests throughout Mississippi, timber operations, sawmills and forest product manufacturers require connectivity for inventory management, equipment tracking and business operations in remote locations.

□□ Hospitality & Tourism

From Gulf Coast casino resorts to inland recreational facilities and historic tourism destinations, hospitality properties require guest WiFi systems and operational connectivity that ProSat Networks expertly delivers.

□□ Energy & Utilities

Mississippi's energy sector including natural gas operations, electric utilities and renewable energy projects requires reliable connectivity for SCADA systems, remote monitoring and operational communications.
and more.

Starlink Installation in Mississippi by ProSat Networks
1-844-799-0258

☐☐ Resort, Marina, and Waterfront Areas:

Long Neck, Oak Orchard, Angola, Pot-Nets communities, Indian River Bay, Lewes-Cape May Ferry terminal routes, and waterfront developments throughout southeastern Delaware.

☐☐ Rural, Agricultural, and Equestrian Delaware:

Farm operations, equestrian properties, poultry facilities, greenhouses, warehouses, remote and off-grid businesses throughout Delaware's farming regions.

☐☐ State Parks, Campgrounds, and RV Infrastructure:

Off-grid Wi-Fi deployment for Cape Henlopen, Delaware Seashore State Park, Killens Pond, Lums Pond, Trap Pond, and private RV parks, campgrounds, and mobile communities statewide.

☐☐ Commercial, Industrial, and Maritime Coverage:

Business parks, logistics facilities, construction sites, schools, healthcare clinics, retail centers, Port of Wilmington facilities, commercial marinas, and industrial properties throughout the State of Delaware.

Starlink and WiFi network installation services may include the following:

- ☐☐ Technical site survey and feasibility assessment
- ☐☐ Data usage analysis and network audits
- ☐☐ Wireless network design (hardwired and wireless solutions) by Certified Network Engineers
- ☐☐ PtP/PtMP wireless bridges (point-to-point or point-to-multi-point) for multi-building connectivity
- ☐☐ Starlink data plan optimization, Starlink pooled data plans
- ☐☐ IT network and LEO satellite dish model recommendations
- ☐☐ Installation materials and parts supply
- ☐☐ IT network system integrations
- ☐☐ Equipment procurement and inventory management
- ☐☐ Onsite professional Starlink installation services and setup
- ☐☐ Integration with existing or new IT infrastructure
- ☐☐ Guest Internet Systems for user and data management, monetized guest WiFi network solutions
- ☐☐ System testing and performance optimization
- ☐☐ Staffing / Talent Acquisition
- ☐☐ Post-installation documentation
- ☐☐ PSN MITS (ProSat Networks Managed IT Services), onsite and remote managed IT support services
- ☐☐ Mid-level and C-Level strategic IT consulting

Industries and Operational Environments Supported by ProSat Networks

- ☐☐ Agriculture, Farming and Ranch Operations
- ☐☐ Airports, Aviation Facilities and Aircraft Hangars
- ☐☐ Apartment Complexes and Residential Communities

- ☐☐ Construction and Temporary Job Sites
- ☐☐ Data Centers
- ☐☐ Distribution Centers and Industrial Warehouses
- ☐☐ Emergency Response and Public Safety Operations
- ☐☐ Healthcare Facilities and Medical Clinics
- ☐☐ Hotels, Resorts and Hospitality Venues
- ☐☐ Marinas, Shipping Ports and Maritime Operations
- ☐☐ Media Production and Broadcasting Facilities
- ☐☐ Mining Operations and Mine Sites (SD-WAN for mines)
- ☐☐ Oil, Gas and Energy Operations
- ☐☐ Retail Stores and Commercial Centers
- ☐☐ Retirement and Senior Living Communities
- ☐☐ RV Parks, Resorts and Campgrounds
- ☐☐ Sand, Gravel and Cement sites and more.

Certified Network Engineers:

ProSat Networks' certified IT technicians bring extensive experience in Starlink installation and commercial IT network solutions, understanding the unique challenges of Mississippi's environment:

- ☐☐ Cisco-Meraki
 - ☐☐ Rajant
 - ☐☐ UniFi-Ubiquiti
 - ☐☐ Aerial Lift, OSHA, MSHA Certified Technicians
-

About ProSat Networks Inc.

ProSat Networks 1-844-799-0258 is an IT network design, installation, onsite and remote managed IT support services company specializing in LEO satellite broadband internet, hardwired and wireless networks, and IT network integrations for businesses, residential and maritime customers throughout the USA, the Caribbean and North America.

Certified Network Engineers on staff (Cisco, UniFi-Ubiquiti, Rajant, M365 & more), experts in LAN/WLAN/WAN/SD-WAN networking, low-voltage data cabling: Fiber Optic, Cat5, Cat6, CatX, coaxial, WiFi heatmapping and wireless spectrum RF analysis to deliver optimized hardwired & wireless network designs. Specializing in complex indoor, outdoor, and subterranean unified IT networking, communications and safety systems, managed system integrations, PtMP & PtP (point-to-multi-point / point-to-point) wireless bridges, long-range WiFi antennas, kinetic mesh wireless, security camera solutions including 24/7 live monitoring, and ongoing managed IT support (onsite & remote MSP) services including 24/7 live NOC support.
