

# American Bin Cleaning Launches Specialized Trash Bin Cleaning Service in Chicagoland

*35-year pressure washing veteran expands into residential and commercial bin cleaning services. Eco-friendly solutions for dirty and odorous garbage cans.*

SPRING GROVE, IL, UNITED STATES, June 3, 2025 /EINPresswire.com/ -- 35-year pressure washing veteran expands services to tackle dirty, smelly garbage bins with eco-friendly cleaning process

[American Bin Cleaning](#), a trusted name in the pressure washing industry since 1989, has launched a new specialized service focused exclusively on residential and commercial [trash bin cleaning](#) throughout the Northwest Suburbs and Chicagoland area.

American Bin Cleaning

The company brings over three decades of cleaning expertise to solve a problem most homeowners and businesses deal with but rarely address: dirty, smelly garbage bins that attract pests and create unsanitary conditions.

“

Trash bin cleaning was a natural extension of our services, and we realized there was a real need for this in our community.”

*Bill Whitlock*

“We’ve been cleaning everything from driveways to corporate campuses for 35 years, including large-scale projects for companies like Facebook and Google”, said Bill Whitlock, owner and president of American Bin Cleaning. “Trash bin cleaning was a natural extension of our services,

and we realized there was a real need for this in our community.”

American Bin Cleaning's process kills 99.99% of bacteria and germs while eliminating odors and pest attraction. The service uses non-toxic, eco-friendly cleaning methods that are safe for families, pets, and the environment.

#### Flexible Service Plans for Every Need:

The company offers four service options to fit different budgets and preferences:

- Monthly service (every 4 weeks)
- Bi-monthly service (every 8 weeks)
- Quarterly service (every 12 weeks)
- On-demand cleaning

All plans include cleaning for up to two trash bins, with additional bins available for \$10 each. The service covers both residential trash bin cleaning customers and [commercial trash bin cleaning](#) clients with larger container systems.

"We wanted to make this convenient and affordable", said Charlie Whitlock, director of operations. "You schedule it once, and we handle the rest. No more worrying about smelly bins or trying to clean them yourself".

The launch comes as more homeowners and businesses recognize the health and aesthetic benefits of regular bin cleaning. Dirty trash bins can harbor harmful bacteria, create unpleasant odors, and attract rodents and insects.

American Bin Cleaning serves communities throughout Chicagoland from their Spring Grove location. The locally owned and operated company emphasizes fast, reliable service backed by decades of experience in the cleaning industry.

About American Bin Cleaning Founded in 1989, American Bin Cleaning has been serving Chicagoland communities with professional pressure washing and cleaning services for over 35 years. The company has worked with residential customers and major corporations across multiple states. Their new trash bin cleaning service combines their established expertise with eco-friendly methods to keep bins clean, sanitary, and odor-free year-round.
