

# leagend T31 Sets New Standard for Affordable and Accurate OBD II Diagnostics

*leagend, a global leader in automotive diagnostics, proudly introduces leagend T31 of its comprehensive OBD II Diagnostic Tools product line.*

SHENZHEN, GUANGDONG, CHINA, June 7, 2025 /EINPresswire.com/ -- leagend, a global leader in automotive diagnostics, proudly introduces leagend T31 of its comprehensive OBD II Diagnostic Tools product line. Designed for both professional technicians and DIY enthusiasts, leagend T31 offers a user-friendly interface and robust diagnostic capabilities, making vehicle maintenance more accessible and efficient.

## Dual-System Diagnostics for Comprehensive Analysis

leagend T31 stands out with its ability to perform dual-system inspections, covering both engine and transmission systems. This feature enables users to conduct thorough diagnostics, ensuring that both critical components are functioning optimally. The tool's intuitive LED indicators—green, yellow, and red—provide immediate visual feedback on engine status, facilitating quick assessments and decision-making.

## Real-Time Data and Extensive ECU Parameter Support

Equipped with dynamic data flow display capabilities, leagend T31 supports real-time monitoring of up to 249 ECU operating parameters. This extensive coverage allows users to observe live data streams, aiding in the identification of irregularities and performance issues. Additionally, leagend T31 can display freeze-frame data and I/M status information, offering a snapshot of the vehicle's condition at the time a fault code was triggered.

**Efficient Trouble Code Management**  
leagend T31 excels in reading and clearing engine trouble codes, providing definitions for Diagnostic Trouble Codes (DTCs) directly on its 128x64 monochrome screen. Users can effortlessly turn off the check engine indicator (MIL), clear codes, and reset the detector, streamlining the troubleshooting process. The device also retrieves essential vehicle information, including the Vehicle Identification Number (VIN), Calibration Identification Numbers (CIDs), and Calibration Verification Numbers (CVNs), ensuring comprehensive diagnostics.

### Multilingual Support and Broad Compatibility

Understanding the global nature of automotive diagnostics, leagend T31 offers multilingual support, including English, German, Spanish, French, Italian, Polish, Finnish, Dutch, Russian, and Portuguese. This feature ensures that users worldwide can operate the device with ease. leagend T31 is compatible with all OBD II/EOBD-compliant cars, SUVs, and light trucks, supporting protocols such as CAN, VPW, PWM, ISO9141, and KWP2000.

“

Designed for professional technicians and DIY enthusiasts, leagend T31 offers a user-friendly interface and robust diagnostic capabilities, making vehicle maintenance more accessible and efficient.”
