

EBC Financial Group Highlights Expansion of Thematic Exposure with Over 100 U.S.-Listed ETF CFDs

New Release Reflects Broader Industry Movement Toward Customisable, Sector-Based Market Instruments

LONDON, UNITED KINGDOM, June 10, 2025 /EINPresswire.com/ -- [EBC Financial Group \(EBC\)](https://www.ebc.com) has announced the addition of over 100 U.S.-listed Exchange-Traded Fund (ETF) Contracts for Difference (CFDs), reflecting a broader trend across the financial sector toward more diversified and thematic exposure for market participants. The inclusion of these instruments signals EBC's alignment with global demand for access to sector-focused and regionally tailored financial instruments.

The expanded offering includes ETFs listed on the New York Stock Exchange and NASDAQ, issued by prominent asset managers such as Vanguard, iShares (BlackRock), and State Street Global Advisors. These instruments reflect key macroeconomic and sectoral narratives that continue to shape global investor sentiment.

"This expansion reflects our vision to bridge intelligent product design with market relevance," said David Barrett, CEO of EBC Financial Group (UK) Ltd. "The new products are a natural evolution for traders seeking targeted exposure with greater strategic flexibility. At EBC, we're building an ecosystem that empowers both precision and performance."

Thematic Access Meets Tactical Flexibility

The expanded suite offers clients opportunities to explore some of the most actively followed macroeconomic and investment themes globally.

EBC Financial Group's new U.S. ETF CFDs provide global clients with diversified thematic trading opportunities across markets, sectors, and investment styles.

These include geographic exposure through funds such as the iShares MSCI Brazil ETF, high-yield fixed income via the likes of iShares iBoxx \$ High Yield Corporate Bond Fund, and commodities exposure via ETFs such as the United States Oil Fund LP, which tracks WTI crude. Sector-specific opportunities are also available, and traders can also take positions across equity baskets including those with dividend-focused strategies, such as the Schwab U.S. Dividend Equity ETF.

Additional themes include market capitalisation strategies like the Russell Mid-Cap Value ETF and investment style tilts, such as the SPDR Portfolio S&P 500 Growth ETF, which tracks growth-oriented stocks.

These additions serve as both stand-alone trade ideas and complementary instruments alongside EBC's existing product lineup, enabling advanced portfolio structuring and thematic trading.

Smarter Exposure: Leverage, Shorting, and Cost Efficiency in One Product

EBC's announcement comes amid an evolving landscape in global finance, where diversification, transparency, and cost structure continue to shape institutional decision-making. As the financial ecosystem moves toward more bespoke and responsive instruments, the growing presence of thematic ETFs and related financial products underlines a shift in how global risk and opportunity are being navigated.
