

AVer Drives Collaboration Forward with New 4K BYOM Matrix Switchers

ROTTERDAM, NETHERLANDS, June 12, 2025 /EINPresswire.com/ -- AVer Information Europe B.V., an award-winning provider of AI audio-video solutions, today announced the arrival of two new 4K [BYOM](#) (Bring Your Own Meeting) Matrix Switchers: the AVer HUB35-EXT35 and the AVer [HUB30](#).

The primary distinction between the two models lies in their scalability for room size, with the HUB35-EXT35 catering to larger spaces. Designed to enhance collaboration, both models offer seamless integration with AVer Pro AV Cameras and USB Conferencing Cameras and provide ultra-high-definition video quality and dynamic multi-angle video experiences, making them an excellent fit for corporate meetings, hybrid learning, and live events. Additionally, USB-C charging with up to 100W power delivery ensures BYOD devices remain charged.

HUB35-EXT35: When Scale Matters

Ideal for professional audio-visual experiences and collaboration in large and extra-large spaces such as auditoriums and exhibition halls, the AVer HUB35-EXT35 Matrix Switcher Kit includes a 4K USB extender to facilitate long-distance peripheral connectivity without compromising resolution or signal integrity. With four inputs and an additional extender, users can easily manage and switch between content sources, cameras, and displays in high-demand collaborative spaces.

HUB30: Meeting Space Versatility

The AVer HUB30 Matrix Switcher is engineered to transform presentations and video conferences with flawless transitions and pristine video output, enhancing communication and collaboration in mid-to-large rooms and conference areas. Designed for quick and easy setup, the HUB30 offers plug-and-play functionality, eliminating the need for drivers and reducing installation time.

AVer Launches the HUB Series

Key Features and Benefits of the HUB35-EXT35 and HUB30

- Ultra-High-Definition 4K Clarity: Both models deliver exceptional 4K resolution for crystal-clear visuals in business presentations, live events, and professional video applications, even in high-demand scenarios.
- BYOM-Ready Connectivity: Supports HDMI, USB-C, and DisplayPort with dual 4K output for expanded displays. Across corporate boardrooms, hybrid workspaces, and various AV deployments, USB-C Power Delivery fast charging keeps devices powered during long BYOD/BYOM sessions, supporting uninterrupted workflow.
- True Dual-Display Support: Offers dual 4K output with options for extended, duplicated, or independent sources, perfect for content sharing and collaborative enterprise and educational usage.
- CP10 G2 Touch Panel Control: Intuitive interface to manage sources for different devices, display preview, and camera management.
- Smart Multi-Camera Switching: Seamlessly switch between two AVer cameras using AI-driven algorithms for dynamic, multi-angle video in live streams, hybrid meetings, and video productions.
