

Synchrocure Expands Franchise Program to Missouri, Opening New Pathways in the Growing Medical Device Market

Empowering Entrepreneurs to Help Transform U.S. Healthcare Through a Proven Franchise Model

MO, UNITED STATES, June 19, 2025
/EINPresswire.com/ -- Synchrocure LLC,

a trusted name in advanced medical device sales and solutions, is pleased to announce the expansion of its national franchise program to Missouri. This milestone marks a significant step in the company's broader mission to improve healthcare delivery while enabling entrepreneurs to participate in a high-growth industry.

“

Franchisees gain access to a powerful business framework designed to support growth and deliver value to the healthcare community.”

Reza Yazdian, J.D.

The U.S. healthcare market, valued at \$3.6 trillion, includes a \$500 billion medical device sector projected to exceed \$650 billion by 2032. Synchrocure's franchise program offers a structured, scalable way for business-minded professionals and sales specialists to enter this dynamic space - with operational support, product access, and training built in.

Founded in 2005, Synchrocure has earned a reputation for delivering cutting-edge medical technologies and maintaining long-standing relationships with healthcare providers based on quality, service, and trust. The franchise model builds on this legacy by enabling qualified individuals to represent a portfolio of in-demand products sourced from leading global manufacturers.

“Our expansion into Missouri is an exciting opportunity to partner with individuals who want to build meaningful businesses in a resilient, high-impact industry,” said Reza Yazdian, J.D., Principal Managing Partner of Synchrocure.

Synchrocure franchisees receive:

- Access to a diverse and high-quality product catalog, including orthopedic, spine, biologic, and

surgical devices

- Turnkey business infrastructure, including logistics, training, and compliance support
- A comprehensive onboarding and training curriculum, including anatomy, medical technology, and consultative sales strategy
- Ongoing coaching and relationship-building tools to support long-term development

Unlike traditional sales roles, Synchrocare franchisees operate under a well-supported ownership model. This empowers them to build sustainable customer relationships and generate multiple revenue streams while contributing to improved patient care.

While financial success is never guaranteed, the franchise model offers strong potential for motivated individuals seeking to grow a business in one of the country's most robust economic sectors.

Entrepreneurs in Missouri and across the U.S. now have access to a franchise opportunity that combines purpose, potential, and professional independence. To learn more, visit: www.synchrocare.com/franchising.
