

Censitech Rebrands to Woodland Hills Cyber IT Specialists: A Commitment to Business IT Excellence

Woodland Hills Cyber IT turns IT headaches into business advantages with expert support, strategy, and security—keeping your company agile and protected.

WOODLAND HILLS, CA, UNITED STATES, June 6, 2025 /EINPresswire.com/ -- Censitech Rebrands as Woodland Hills Cyber IT Specialists, Signaling Growth and Local Commitment

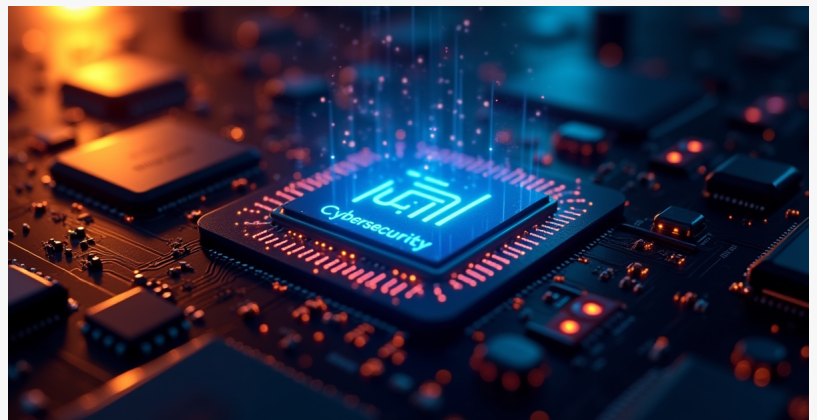

Censitech, a longstanding provider of IT solutions in Southern California, today announced a strategic rebrand to Woodland Hills Cyber IT Specialists, a move that reflects its evolving focus on cybersecurity, scalable IT operations, and community-driven service for small to mid-sized businesses in the Greater Los Angeles area.

The name change is part of a broader brand evolution aimed at better aligning the company's identity with its expanding suite of services and its deep roots in the Woodland Hills community. Founded by a third-generation Angeleno, the firm remains committed to its core values of responsiveness, innovation, and local reliability—principles that have guided its work for over a decade.

"This rebrand is more than a name change—it's a reaffirmation of who we are and who we serve," said the company's founder. "We're proud to be local, and we're even prouder to help local businesses thrive in an increasingly complex digital world."
